

Residential Renovations 512 Expands Austin Service Area and Launches New Website

Known for high-quality kitchen remodels, bathroom renovations, and custom deck and outdoor living projects, the company is responding to the growing demand for reliable, locally rooted home improvement expertise.

Austin, Texas Dec 12, 2025 ([IssueWire.com](https://www.issuewire.com)) - Residential Renovations 512, one of Austin's most trusted names in home remodeling, has launched its redesigned website and expanded service area across Central Texas. Known for high-quality kitchen remodels, bathroom renovations, and custom deck and outdoor living projects, the company is responding to the growing demand for reliable, locally rooted home improvement expertise.

The newly updated website — <https://residentialrenovations512.com>

— offers homeowners a cleaner, faster experience with rich project galleries, detailed service pages, and educational design insights. The site walks users through each step of the remodeling process —

from consultation and design to construction and finishing — ensuring homeowners feel confident and informed from day one.

“Our goal is simple: give Austin homeowners a space that finally works for them,” said Mike Keels, owner of Residential Renovations 512. “A well-designed kitchen, a refreshed bathroom, or a new deck can completely transform how families live day-to-day — and our new website shows exactly how we make that happen.”

Expanded Home Renovation Services Across Central Texas

Residential Renovations 512 now serves a wider area beyond the Austin city limits, **offering full remodeling and renovation services across Cedar Park, Round Rock, Pflugerville, Leander, Bee Cave, Lakeway, West Lake Hills, and Dripping Springs.**

Each project blends design insight with hands-on craftsmanship — whether it’s:

- **Kitchen renovations** that improve layout, lighting, and everyday functionality.
- **Bathroom remodels** that balance modern design with long-lasting materials.
- **Custom decks and outdoor spaces** built for enjoying Austin’s unique climate and lifestyle.

From updating outdated interiors to creating functional outdoor retreats, the company handles demolition, structural design, electrical and plumbing, cabinetry installation, flooring, and final trim work — all under one roof.

Local Expertise, Austin Pride

Unlike national renovation franchises, Residential Renovations 512 is 100% locally owned and operated. The company understands Austin’s soils, heat, and style — and applies that local knowledge to every project to ensure durability, comfort, and resale appeal.

“We’re neighbors first and remodelers second,” Keels added. “That personal connection drives the quality of every kitchen, bathroom, and deck we build.”

Homeowners can explore the new site to view recent renovations, get instant project inspiration, or request a personal quote online.
