

# SoftLogic: Building Smarter Classrooms for the Future of Learning

SoftLogic: Empowering Classrooms with Smart, AI-Driven Education Solutions for a Future-Ready Learning Experience.

**Pune, Maharashtra Dec 24, 2025 ([IssueWire.com](https://www.issuewire.com))** - SoftLogic is an OEM/ODM manufacturer of smart educational technology, focused on building scalable, reliable, and future-ready classroom solutions. We design and manufacture products that address real educational needs while aligning with the rapid digital transformation of global learning environments.

Our approach combines purposeful technology, strong manufacturing capabilities, and deep collaboration with educators and partners. By delivering complete, tech-enabled learning ecosystems, we help institutions improve teaching effectiveness, student engagement, and long-term infrastructure value.

We work closely with schools, distributors, governments, and global brands to convert ideas into market-ready education solutions. From interactive classroom hardware to AI-powered software platforms, our portfolio is designed for scalability, customization, and long-term deployment across diverse education

markets.

Our products form an integrated, end-to-end smart classroom ecosystem—covering core teaching hardware, supporting infrastructure, and AI-driven software solutions.

## Product Portfolio

- **Interactive Flat Panels** – High-resolution touch displays for collaborative teaching and multimedia lessons.
- **AI Smart Boards** – Intelligent boards with AI-powered tools to enhance learning engagement and analytics.
- **Smart Interactive Whiteboards** – Versatile whiteboards that support interactive lessons and real-time collaboration.
- **Android & Windows Digital Podiums** – Digital teaching consoles for smooth lesson delivery and classroom management.
- **OPS (Open Pluggable Specification)** – Modular computing units that enhance performance and flexibility for displays.
- **PTZ Cameras** – Pan-tilt-zoom cameras for live recording, streaming, and interactive remote learning.
- **Digital Signage Solutions** – Dynamic displays for announcements, schedules, and educational content.
- **Trolley Floor Stands** – Mobile stands for flexible classroom display placement and easy movement.
- **Sliding Shutter Safety Systems** – Protective systems to ensure classroom touch panels safety and longevity.
- **AI Education Software** – Intelligent platforms that provide content management, analytics, and personalized learning.

SoftLogic operates with a strong focus on quality control, cost efficiency, and customization, enabling partners to scale quickly while maintaining consistent product performance. Our OEM/ODM model supports branding, localization, and rapid market entry for domestic and international partners.

As global education continues to shift toward smart and connected classrooms, SoftLogic is positioned to grow alongside this demand. Our commitment to innovation, manufacturing excellence, and strategic partnerships makes us a long-term value creator in the education technology ecosystem.
