GARY KINSEY

Gary Kinsey was supposed to have a career selling insurance. But he decided long ago that life wasn't for him, so he left his hometown in Indiana to come to Florida to live near the water. Throughout his life, he's held many titles: military man, bartender, fisherman, physical therapist, drug smuggler, inmate, Uber driver, candy maker, and more. And now, the man with many stories of a life well-lived can add author to his list. The Man at the Table is his first book. Kinsey lives in Gainesville, Florida.

Canoga Park, California Dec 5, 2025 ([IssueWire.com](https://www.issuewire.com)) - Gary Kinsey's life is a testament to defiance, risk, and an unwavering belief in the natural power of cannabis. In his memoir, [*The Man at the Table*](#), is a high-octane journey through a life lived outside the lines of conventional law, fueled by adventure, love, and five tons of high-grade substance.

The book opens with a scene as dramatic as any Hollywood thriller: Gary Kinsey stepping off a boat, having survived months at sea, evading authorities, and weathering "mammoth storms" while carrying a staggering five tons of pot. His first words upon reaching land—a visceral cry of "Fuck you, Richard Nixon!"—encapsulate the core of his lifelong rebellion.

Kinsey's anger wasn't just personal; it was aimed squarely at the government's War on Drugs. He was enraged by what he saw as the state's infringement on personal freedoms and the right to use a natural substance that he believed helped people to heal, relax, and be happy. This conviction forms the philosophical backbone of his story, justifying a life that would see him become an expert in the world he knew best: cannabis.

The Man at the Table by Gary Kinsey will be featured in one of the articles at the Publisher's Weekly, stay tuned and be updated of the edition soon!

Kinsey's life path is anything but ordinary. It's a mosaic of diverse experiences that have shaped his perspective and skills. Before his days of high-seas smuggling, he was an Army man in Germany and a physical therapy student in Amsterdam—two starkly different settings that highlight his capacity to navigate structured environments and free-spirited ones alike.

Ultimately, Kinsey's story is for anyone who has questioned authority and believed in a different way of living. ***The Man at the Table*** is an awe-inspiring, honest, and philosophically rich memoir that provides a captivating look into a life that has never much cared for what the authorities thought.
