

VISTA InfoSec Celebrates 21 Years of Strengthening Global Cybersecurity and Compliance

New York City, New York Dec 1, 2025 ([Issuewire.com](https://www.issuewire.com)) - VISTA InfoSec, a global leader in cybersecurity advisory, audit, and compliance services, proudly marks **21 years of securing digital trust for organisations worldwide**. Over two decades, the firm has evolved into a strategic security partner for regulated industries across 40+ countries — known for its deep expertise, its independence, and its unwavering commitment to client success.

To further accelerate its expansion in the US and Canada, VISTA InfoSec also announced the appointment of Nathan Khanna as the new Head of Sales for North America. Nathan joins with a mandate to scale client engagement, strengthen enterprise partnerships, and drive regional growth across financial services, healthcare, SaaS, and emerging tech sectors.

A Milestone Built on Trust, Independence, and Expertise

Since 2004, VISTA InfoSec has delivered high-impact programs across a broad ecosystem of standards and regulations, including [PCI DSS](#), [SOC 2](#), ISO 27001, HIPAA, GDPR, NIS2, and DORA. The company has also expanded its technical service portfolio with penetration testing, application security assessments, cloud security reviews, ASV scans, and independent governance and assurance services.

Operating from key hubs in the United States, India, Singapore, the United Kingdom, and the Middle East, the firm combines global reach with local regulatory insight — supporting Fortune 500 enterprises, mid-market companies, and high-growth SaaS providers.

“Twenty-one years is not just a milestone — it is a reaffirmation of our promise,” said Director Narendra Sahoo. “We have always believed that security and compliance should empower businesses, not burden them. Our growth, our global footprint, and the trust we enjoy today come from a simple principle: deliver honest, independent guidance backed by deep technical competence. With Nathan joining us to strengthen North America, we are entering our next phase of expansion with renewed energy and purpose.”

Strengthening North America: Nathan Khanna Appointed as Head of Sales

The appointment of **Nathan Khanna** marks a significant step in VISTA InfoSec’s North American growth strategy. With extensive experience in cybersecurity sales, enterprise engagement, and regulatory consulting, Nathan will lead efforts to expand the company’s presence across the US and Canada, build strategic alliances, and enhance client relationships in high-demand sectors.

What Sets VISTA InfoSec Apart

- **Independent, practitioner-led audits and advisory** — with no outsourcing, no product reselling, and no implementation bias.
- **Globally recognised expertise** — serving highly regulated industries with precision and credibility.
- **End-to-end program ownership** — from scoping and readiness to certification, reporting, continuous monitoring, and ongoing advisory.
- **CREST-approved, QSA-certified, and globally trusted** for specialised audit and technical services.

Looking Ahead

With regulatory expectations intensifying and cyber-threats escalating worldwide, VISTA InfoSec plans deeper investments in specialised talent, expanded service lines, and region-specific advisory for emerging regulations. The firm’s long-term vision remains consistent: helping organisations become secure, compliant, and truly resilient.

Anniversary Initiative: Free Certification Consultation

To celebrate this milestone, VISTA InfoSec is offering a **complimentary compliance and certification consultation** for organisations pursuing PCI DSS, SOC 2, ISO 27001, HIPAA, GDPR, NIS2, and DORA. The session includes:

- Scope clarification and requirement mapping
- A custom certification roadmap
- Estimated timelines and resource effort
- Guidance from experienced auditors and assessors
