Heartfelt debut single tells a powerful story of love, loss, healing, and hope ahead of an upcoming album

Midland, Texas Dec 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - WesternWoman Announces Debut Single “Widows Heart” Releasing December 19

WesternWoman, a powerful new voice in country rock, announces the release of her debut single,

“Widows Heart,” arriving December 19 on all major streaming platforms. The release marks the first glimpse into an upcoming full-length album that explores love, loss, resilience, and hope.

WesternWoman is brought to life by songwriter Debbie Kemp, whose heartfelt storytelling forms the emotional core of the project. A remarried widow, Debbie Kemp, draws from deeply personal experiences to tell the story of profound grief after losing a spouse, the courage it takes to love again, and the promise of healing and renewal. What began as songwriting therapy soon evolved into a creative journey of restoration and connection, ultimately becoming WesternWoman.

“Widows Heart” is a raw and honest reflection of loss and survival, written not only as a personal release but as a tribute to others walking similar paths. Debbie Kemp dedicates the song to her fellow widows and the support she received through the Wacky Widows Zoom meetings, a Facebook-based community that provided comfort, laughter, and strength during some of life’s most difficult moments.

Blending country storytelling with rock-edged emotion, WesternWoman delivers music that resonates with authenticity and heart, offering listeners both empathy and encouragement.
