

Confectionery Pioneers Zac and Cody Revolutionize the Snacking Industry with Launch of The Freeze Dried Candy Store

Kansas City, Missouri Jan 1, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Childhood friends turned entrepreneurs, Zac and Cody, are officially disrupting the traditional sweets market with the grand opening of The Freeze Dried Candy Store. Operating via their flagship digital storefront, thefreezedriedcandystore.com, the duo is bringing high-tech preservation methods to the world of treats, offering a crunchier, more intense

flavor profile than standard candy.

As the demand for innovative snacks and unique candy textures skyrockets, Zac and Cody have positioned themselves at the forefront of the freeze-dried food movement. By utilizing advanced sublimation technology, The Freeze Dried Candy Store transforms classic gummy, chewy, and hard candies into light, airy, and "melt-in-your-mouth" snacks that have become a viral sensation.

"We didn't just want to sell candy; we wanted to change the way people experience it," says the founder Cody. "By removing the moisture and expanding the sugar crystals, we've created a gourmet freeze-dried snack that amplifies the flavor and provides a satisfying crunch you can't find anywhere else."

Setting a New Standard in the Freeze-Dried Candy Industry

The Freeze Dried Candy Store is quickly becoming the go-to destination for bulk freeze-dried candy and viral TikTok treats. Key highlights of their current product lineup include:

Intense Flavor Profiles: The freeze-drying process concentrates sugars for a more potent taste.

Diverse Selection: From freeze-dried salt water taffy to crunchy gummy worms and seasonal exclusives.

About Zac and Cody

Zac and Cody founded The Freeze Dried Candy Store with a mission to merge food science with nostalgia. Their commitment to quality control and small-batch production ensures that every bag delivered from thefreezedriedcandystore.com meets the highest standards of the confectionery industry.

"The feedback has been incredible," says Zac. "We're seeing a massive trend in novelty candy gifts and sensory-friendly snacks. We are thrilled to be the leaders in this space, providing a product that is as fun to eat as it is to talk about."
