

Divine Mattocks’ “Change Your Mind” Continues Building Momentum on Spotify and Apple Music

Originally released exclusively on YouTube in June 2025, the seductive deep house/EDM track expanded to Spotify and Apple Music in September 2025 via UnitedMasters and is now seeing renewed listener interest—powered by its hypnotic hook.

Duvall, Washington Jan 4, 2026 ([IssueWire.com](https://www.IssueWire.com)) - **Perspective Imaging LLC** announced renewed listener momentum for “**Change Your Mind**,” the seductive deep house / EDM single by **Divine Mattocks**, as audience discovery continues to grow across **Spotify** and **Apple Music** following the track’s digital distribution rollout via **UnitedMasters**. First introduced as a **YouTube**-first release in June 2025, “Change Your Mind” has re-entered active rotation as more listeners search for hypnotic deep house vocals, late-night dance music, and emotionally charged EDM songwriting. The single is officially listed under Perspective Imaging LLC on the UnitedMasters release page, giving fans a centralized destination to access the song on **Spotify**, **Apple Music**, and **YouTube**.

“Change Your Mind” blends a seductive electronic groove with a minimalist lyrical hook designed for replay value and playlist culture in deep house and dance music communities. A fan-favorite centerpiece arrives in the hypnotic “inside, inside... in your eyes” refrain—an icy, trance-like moment that transforms the record from a standard club track into a cinematic listening experience. Many listeners also point to the long-form ending stretch (approximately **2:15 through 4:37**) as the track’s signature payoff, unfolding like a suspenseful closing scene where the tension builds, the atmosphere widens, and the final moments land with a seat-gripping finish.

The current press release is being issued to support ongoing momentum and search discovery for the single, connecting new listeners to the official streaming destinations and the original YouTube availability through UnitedMasters distribution. “Change Your Mind” is available now via the official UnitedMasters landing page, which links directly to Spotify, Apple Music, and YouTube.
