JOAQUIN SANCHEZ

"What can I say - especially about the crew, who truly make you feel at home. Special mention to Irene and Emi. I was traveling alone, and they made sure I never felt that way at any moment. A highly recommended excursion: good food, unlimited drinks, and enough time to explore part of Formentera. The return trip is incredible, with the sunset, great DJ music, and the good fortune of being with a group that brought energy to the party and helped end the day on a high note. Another mention goes to the woman in charge of handing out the shots- not very talkative, but always with a smile on her face. Those small details are always appreciated."

Maria Antonietta Martin

"Such a great experience!!! A catamaran trip from Ibiza to Formentera, with several stops where we could use paddle boards and jump into the water for a swim. I really liked the service because the staff were very attentive. There was a bar for breakfast and drinks, followed by a delicious paella. Great atmosphere with the DJ's music. I had an amazing time!!"

Brianna Harrison

"If you're on the fence, book it!!! The kindest staff and a stop at the clearest water that I've ever seen. Multiple options depending on whether you want a half or full day, and plenty of activities like stand up paddle boarding to keep you busy! The pictures don't do it justice, you have see it in person".
