

# Former NASCAR Competitor Brian Weber Inks Major Sponsorship with BlackGoldEcoverse.com for 2026.

**Charlotte, North Carolina Jan 23, 2026 (IssueWire.com)** - Former NASCAR driver, team owner, and veteran competitor Brian Weber has secured BlackGoldEcoverse.com as a major marketing partner for the 2026 racing season.

BlackGoldEcoverse.com is home to the Crypto Black Gold (CBG) token — the first cryptocurrency backed by realworld oil and gas assets, bringing tangible value and utility into the digital asset space.

The partnership's initial phase will feature Weber competing full-time in the Carolina Crate Modified Series, where he has been a top-five points contender for four consecutive seasons. Additional 2026 initiatives are already in development and will be announced soon.

"This journey in racing has been incredible, and things have come full circle," said Weber. "Tony Huerta, CEO of BlackGoldEcoverse.com, sponsored me back in 2003 during my NASCAR BUSCH Series days, when he was pioneering the prepaid debit card industry. I'm excited about this opportunity and ready to energize this program."

Weber added, "I passed on Bitcoin in 2009 — I won't be making that mistake again."
