

Hexagon IT Solutions Announces the Strategic Merger of SKAD IT Solutions

CEO J. Daks confirms the strategic merger of SKAD IT Solutions into Hexagon IT Solutions, strengthening governance, delivery scale, and enterprise-grade technology services under one unified brand.

Draper, Utah Jan 21, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Hexagon IT Solutions](#) today officially announces the strategic merger of [SKAD IT Solutions](#) into Hexagon IT Solutions. This merger, formally confirmed by [J. Daks](#), Chief Executive Officer, marks a significant milestone in the company's growth journey and

strengthens its ability to deliver comprehensive, enterprise-grade technology solutions under one unified brand.

With this consolidation, SKAD IT Solutions' operations, service capabilities, and delivery teams are now fully integrated into Hexagon IT Solutions, enabling improved scale, stronger governance, and accelerated execution for clients across sectors.

After careful consideration and alignment of long-term vision, we have completed the merger of SKAD IT Solutions with Hexagon IT Solutions," said [J. Daks](#), **CEO of Hexagon IT Solutions**. "This strategic integration enhances our ability to deliver stronger technical capabilities, improved project governance, and a more integrated service experience. Our focus remains clear building reliable, secure, and scalable solutions that create measurable value for our clients.

Expanded Technology Services Portfolio

As a unified organization, Hexagon IT Solutions will offer an expanded range of core technology services designed to support business transformation, operational efficiency, and scalable growth:

1) Web & Application Development

Custom-built websites, web portals, and mobile applications aligned to business needs, performance standards, and security best practices.

2) API Integration & System Connectivity

End-to-end API development and integration services, including third-party integrations, system-to-system connectivity, automation workflows, and secure data exchange.

3) Enterprise Software & Business Platforms

Design and implementation of scalable enterprise applications and internal business platforms to improve operational control and efficiency.

4) Business Intelligence & Advanced Reporting

Analytics, dashboards, KPI reporting, and decision-support frameworks that help organizations track performance and drive data-led actions.

5) Cloud & Infrastructure Support

Cloud deployment assistance, hosting strategy, performance optimization, and infrastructure readiness to ensure reliability and scalability.

6) IT Consulting & Digital Transformation

Technology consulting, solution architecture, process improvement, and modernization initiatives supporting long-term business objectives.

Client Continuity and Delivery Assurance

Hexagon IT Solutions confirms that all existing SKAD client projects, service commitments, and support engagements will continue without interruption. The merger is structured to provide clients with:

- A unified delivery organization and governance model
- Enhanced technical depth and structured execution
- Improved consistency in quality, documentation, and reporting
- A streamlined experience with a single accountable partner

About Hexagon IT Solutions

Hexagon IT Solutions is a technology services company delivering scalable solutions across web, software, enterprise platforms, and integrations. With a strong commitment to quality execution and client success, Hexagon enables businesses to modernize operations and build reliable systems that support growth.
