Logical Commander Welcomes a World-Class Board of Advisors to Advance Ethical Internal Risk Prevention

World-class leaders in oversight, behavioral risk, national security insider threats and governance join Logical Commander to shape the future of ethical, non-intrusive internal risk and insider threat prevention

New York City, New York Jan 19, 2026 (Issuewire.com**)** - Logical Commander Software , today announced the formation of its **Board of Advisors**, welcoming a distinguished group of senior leaders whose combined experience spans **government oversight, labor regulation, insider risk, behavioral science, national security, and advanced technology**.

The Board of Advisors includes **Hon. Sean O'Donnell**, former Inspector General of the U.S. EPA - Environmental Protection Agency and Acting Inspector General at the U.S. Department of Defense; **Hon. Larry D. Turner**, former Inspector General of the U.S. Department of Labor and Deputy Inspector General of the U.S. Army Information Management Command; **Dr. Eric Lang**, former Director of the U.S. Department of Defense Personnel and Security Research Center (PERSEREC) and Head of Behavioral Risk Sciences; and **Mr. Yaakov Haran**, former Head of Operational Technologies at Israel's National Intelligence Agency.

The formation of this advisory board marks a **significant milestone** in Logical Commander's evolution and sends a clear signal to the market: internal risk prevention must be grounded in **ethics, accountability, regulatory alignment, and real-world oversight**.

Logical Commander operates at the intersection of **internal risk, integrity, ethics, insider threats, and compliance**—a domain where missteps can carry serious legal, reputational, and human consequences. The advisors joining the company have spent decades **enforcing integrity, protecting institutions, overseeing compliance, and responding to failures when governance breaks down**. Their collective experience ensures that Logical Commander's technology is shaped by leaders who understand both **how risks emerge and how they are judged after the fact**.

"Our decision to establish this Board of Advisors was deliberate," said **Matias Schapiro, Chief Executive Officer of Logical Commander**. "These are individuals who have defined and enforced standards of integrity and accountability at the highest levels. Their guidance ensures that our platform remains ethical, non-intrusive, and fully aligned with U.S. labor and regulatory expectations as we scale."

The Board will actively advise on **ethical safeguards, regulatory alignment, product boundaries,**

language, and strategic direction, particularly as Logical Commander expands its presence in the United States and other highly regulated markets. Their involvement reinforces the company's commitment to building technology that **supports human judgment rather than replacing it**, enabling early risk prevention without coercion or automated conclusions about individuals.

By welcoming this Board of Advisors, Logical Commander strengthens its mission to set a new global standard for **ethical, compliant, and effective internal risk prevention**.

Join us.
Logical Commander invites organizations, partners, and industry leaders who believe in **ethical innovation, integrity, and responsible internal risk prevention** to join us as we expand across the U.S. market.

If you are looking to **lead commercially, partner strategically, or adopt a fully compliant approach to internal risk and insider threat prevention**, we welcome the conversation.
