

# New Travel Guide Highlights the Ultimate Houston to New Orleans Road Trip

**Houston, Texas Jan 23, 2026** ([Issuewire.com](http://Issuewire.com)) - A newly published travel guide from *The Open Road Travel* is shining a spotlight on one of the most popular and culturally rich road trips in the southern United States: the drive from Houston to New Orleans.

Covering roughly **350 miles along Interstate 10**, the journey takes travellers from the energy of Texas'

largest city to the music, food, and history of New Orleans in just over **five hours of driving time**. The guide breaks down why this route continues to be a favourite for both first-time visitors and seasoned road-trippers.

According to the guide, the drive offers far more than a simple point-to-point journey. Travellers pass through **eastern Texas and Louisiana**, with opportunities to stop at coastal towns, cultural hubs, and food destinations that showcase the unique character of the Gulf Coast.

One standout stop highlighted in the guide is **Lake Charles, Louisiana**, a popular halfway point known for its outdoor attractions, local museums, and entertainment options. The route also lends itself to flexible itineraries, making it ideal for weekend getaways or longer, slower trips with multiple overnight stops.

The guide also outlines the **best times of year** to take the trip, recommending late winter through spring for milder weather and fewer disruptions, while noting that travellers planning later in the year should be mindful of hurricane season along the Gulf Coast.

Designed to help travellers plan with confidence, the article positions the Houston to New Orleans drive as an easy-to-follow route with a strong balance of scenery, culture, and convenience. The full guide includes route tips, suggested stops, and planning advice for anyone considering the journey.
