DIGITAL MOBILITY PROGRAM**

Gurgaon, Haryana Jan 31, 2026 ([Issuewire.com](https://www.Issuewire.com)) - OnDemand International, a global business advisory and mobility firm, has successfully assisted **over 500 entrepreneurs** in establishing their [European presence through Spain](#), combining corporate structuring with long-term residency solutions.

Through its [International Digital Mobility Program](#), the firm has enabled founders, consultants, and business owners to legally relocate, operate, and scale within the European Union—

while maintaining compliance across immigration, tax, and corporate regulations. The program has recorded a **98% approval success rate**, positioning OnDemand International as one of the most reliable facilitators of business-led European mobility.

“Our focus has never been on selling visas or registrations in isolation,” said **Mr. Saif Nawaz, Managing Director of OnDemand International**. “We build jurisdiction-ready structures where business formation, residency, and regulatory compliance are aligned from day one. Our success rate isn’t a coincidence—it’s the result of deliberate design and execution.”

The Spain platform has become a strategic entry point for non-EU entrepreneurs seeking:

- EU market access through compliant company formation
- Residency pathways linked to real economic activity
- Long-term scalability without regulatory fragility

OnDemand International’s integrated approach covers [company incorporation](#), tax structuring, residency filings, post-setup compliance, and ongoing advisory—allowing clients to operate with continuity rather than patchwork solutions.

With growing demand from founders based in the Middle East, India, and Southeast Asia, the firm plans to further expand its European mobility and structuring offerings in 2026.
