

Pierce Contracting LLC Rebrands as Evansville Home Remodelers

Evansville, Indiana Jan 21, 2026 ([Issuewire.com](https://www.issuewire.com)) - Pierce Contracting LLC has officially rebranded as **Evansville Home Remodelers**, marking a new chapter for the locally owned remodeling company while continuing its long-standing commitment to quality craftsmanship and dependable service.

The name change reflects the company's growing focus on residential remodeling, home improvements,

and custom additions throughout Evansville and the surrounding Tri-State area. While the name has changed, ownership, leadership, and day-to-day operations remain the same. Clients can expect the same trusted workmanship, clear communication, and hands-on project management that Pierce Contracting LLC has been known for.

“Evansville Home Remodelers better represents who we are today and the homeowners we serve,” said Mathew Pierce, the company’s owner. “Our work has always been about improving how people live in their homes, and this new name clearly reflects that mission.”

Evansville Home Remodelers specializes in home improvements, interior renovations, layout reconfiguration, and custom-built spaces including family rooms, home offices, entertainment areas, and home additions. The company serves homeowners across Evansville, Newburgh, Henderson, and nearby communities.

Existing contracts, warranties, and customer relationships are unaffected by the rebrand. The company will continue operating from the same Evansville location with the same team and commitment to high-quality results.

For more information about Evansville Home Remodelers and its services, homeowners are encouraged to contact the company directly.
