**Noida, Uttar Pradesh Jan 14, 2026 ([Issuewire.com](http://Issuewire.com))** - India's Growing Ready-Mix Plaster & Tile Adhesive Brand

Trusted by Builders | Preferred by Contractors | Profitable for Dealers

Plastoproof is an IIT Kanpur certified building material manufacturer delivering ready mix plaster, mortar, and tile adhesive solutions across India.

*Plastoproof*, a fast-growing brand in advanced construction materials, is redefining the way India builds with its high-performance **Ready-Mix Plaster Mortars, Tile Adhesives, Block Bonding Mortars, and Wall Care Solutions**. Designed for speed, strength, and consistency, Plastoproof products are rapidly gaining preference among **builders, contractors, developers, and infrastructure companies** across the country.

### **Quality, Technology & Innovation-**

Quality stands as a core pillar of Plastoproof's operations, supported by a strong foundation of **modern material science, advanced formulation techniques, and rigorous quality control processes**. Each Plastoproof product is developed using **graded aggregates, premium cement, and performance-enhancing polymers**, ensuring consistent strength, superior workability, and long-term durability.

Certified by IIT Kanpur and trusted by **leading reputed infrastructure departments including Delhi Metro (DMRC), Uttar Pradesh Metro (UPMRC), Public Works Department (PWD), Central Public Works Department (CPWD), Research Designs and Standards Organisation (RDSO) and Institute for Industrial Research & Toxicology (IIRT)** — Plastoproof is the preferred choice of builders, contractors, and developers nationwide.

### **Patented Technology, R&D & ESG Commitment-**

Plastoproof leverages **patented formulation technologies** and research-led innovation to provide consistent, durable, and sustainable ready-mix construction solutions.

Continuous innovation in the construction sector is the core mantra for achieving **ESG (Environmental, Social, and Governance) standards**.

This innovation-led approach reinforces Plastoproof's commitment to sustainable infrastructure development while supporting India's transition toward smarter, greener, and more efficient construction practices.

### **Unique Features-**

Test results of Ready to Mix Mortar carried out at IIT Kanpur

- Water/RM ratio — 0.17
- Flow — 113.67%

Compressive Strength –

3 days (72 ± 1 hour) — 8.39 N/mm<sup>2</sup>

7 days (168 ± 2 hour) — 13.10 N/mm<sup>2</sup>

28 days (672 ± 4 hour) — 20.45 N/mm<sup>2</sup>

- Air Content (by Pressure Method) — 5.0%
- Water Retention — 67.3%
- Flexural Strength –

7 days (168 ± 2 hour) — 2.99 N/mm<sup>2</sup>

28 days (672 ± 4 hour) — 4.59 N/mm<sup>2</sup>

### Advantages-

**“Ready mix plaster requires only two curing cycles within 24 hours, and the surface becomes ready for other applications after 48 hours, resulting in significant savings in water, time, and overall cost.”**

As construction projects demand faster execution and long-lasting quality, Plastoproof delivers **factory-engineered, ready-to-use solutions** that eliminate on-site mixing errors, reduce labor dependency, and significantly cut construction time and cost. With polymer-modified formulations and strict quality control, Plastoproof ensures **uniform strength, superior bonding, and enhanced surface finish** on every project.

Its a next-generation construction materials brand committed to delivering **innovative, reliable, and cost-effective ready-mix solutions**. With a focus on quality, performance, and ease of application, Plastoproof is helping shape stronger, smarter, and faster construction across India.

*“Plastoproof was created with a clear vision — to simplify construction while improving durability and efficiency. Our ready-mix solutions help builders save time, reduce wastage, and achieve consistent results, even on large-scale projects,”*

Plastoproof’s product portfolio includes **Ready-Mix Plaster (Pro & Pro Plus), Tile Adhesives, Block Jointing Mortars, and Wall Care Putty**, suitable for both new construction and renovation projects. all developed to meet modern construction standards.

The brand is actively expanding its **dealer and distributor network across India**, offering strong business opportunities for construction material partners.

### What Makes Plastoproof the Preferred Choice-

- **Ready-Mix Technology** for consistent quality and faster application
- **Higher Coverage & Reduced Water Consumption** for cost efficiency
- **Excellent Bond Strength & Durability** in varied climatic conditions
- **Wide Product Range** suited for new construction and renovation

Headquartered in **Noida, Uttar Pradesh, PLASTOPROOF SOLUTION PRIVATE LIMITED** is expanding its presence across India and aims to play a key role in the future of the construction industry by delivering stronger, smarter, and faster building solutions.

Partner with Plastoproof — a growing brand in plaster mortar & Tile adhesives.

**India's Growing Ready-Mix Plaster & Tile Adhesive Brand**

Certified by IIT Kanpur and trusted by leading Delhi Metro (DMRC), Uttar Pradesh Metro (UPMRC), (PWD), (CPWD), (RDSO) and (IRT). PlastoProof is the preferred choice of builders, contractors, and developers nationwide.

Unique Features:  
Waterproof ready mix plaster  
Compressive Strength - 20.45N/mm<sup>2</sup>  
Flexural Strength - 4.59 N/mm<sup>2</sup>

Advantages:  
Ready mix plaster requires only 1kg of water per 25kg bag and the material becomes ready for other applications after 48 hours, resulting in significant savings in water, time, and overall cost.
