

Renewable Energy Expo 2026 to Be Held in Chennai from 12–14 February

The poster for the 8th Edition Renewable Energy Expo features a vibrant purple background with a subtle dot pattern. At the top left is the IssueWire logo. The main title '8th Edition RENEWABLE ENERGY Expo' is prominently displayed in the upper center, with 'RENEWABLE' in large green letters and 'ENERGY Expo' in blue. Below the title, three white circles with purple borders contain the dates '12th', '13th', and '14th'. Underneath these, the text 'FEBRUARY 2026' is written in white. A horizontal line separates this from the venue information: 'NEW EXHIBITION HALL 1, 2, 3 & 4' and 'CHENNAI TRADE CENTRE', both in white. At the bottom, there are three circular images: the left one shows a nuclear power plant and wind turbines; the middle one is a yellow starburst with the text 'VISIT US'; the right one shows wind turbines and solar panels. At the very bottom, a white banner contains the text 'THE LARGEST & PREMIUM INTERNATIONAL RENEWABLE ENERGY EVENT OF THE YEAR'.

THE LARGEST & PREMIUM INTERNATIONAL RENEWABLE ENERGY EVENT OF THE YEAR

Chennai, Tamil Nadu Jan 14, 2026 ([IssueWire.com](http://www.IssueWire.com)) - The **Renewable Energy Expo 2026**, a leading B2B platform for clean and sustainable energy solutions, will take place from **12 to 14 February 2026** at the **Chennai Trade Centre, Nandambakaam, Chennai**. Organised by **Water Today Pvt. Ltd.**, the 8th edition of the Expo is expected to feature **over 200 exhibiting companies** and attract **more than 16,000 business visitors** from across India and beyond.

The three-day exhibition will showcase the latest products, technologies, and innovations across **renewable and solar energy, grid and metering systems, green hydrogen, hybrid energy solutions, energy storage, battery infrastructure, e-mobility, EV charging solutions, and allied clean energy segments**. The Expo aims to serve as a focused business platform for industrial energy users, project developers, EPC contractors, utilities, policymakers, consultants, investors, and technology providers seeking practical and scalable clean energy solutions.

Held alongside the exhibition, the **two-day Green India Conference on 12 and 13 February 2026** will focus on the theme “**Transforming India’s Power Systems for a Renewable-First Era.**” The conference will address the evolving dynamics of India’s power sector and the pathways required to integrate renewable energy at scale.

Key focus areas of the conference include **renewable energy integration, energy storage and battery technologies, grid modernisation, green hydrogen development, e-mobility and EV infrastructure, policy frameworks, financing mechanisms, and sustainability-driven business models**. The sessions will feature **experienced speakers and industry experts** who will share insights through case studies, panel discussions, and technical presentations.

Business visitors attending the Expo and Conference will gain direct access to solution providers, knowledge leaders, and decision-makers, enabling meaningful discussions and collaboration opportunities. The event offers a platform to explore new technologies, understand regulatory developments, identify project opportunities, and build strategic partnerships across the clean energy value chain.

With India accelerating its renewable energy targets and industries increasingly prioritising decarbonisation, energy efficiency, and sustainability compliance, **Renewable Energy Expo 2026** provides a timely forum for businesses to align with the country’s clean energy roadmap.

Event Details:

Dates: 12–14 February 2026

Venue: Chennai Trade Centre, Chennai

Green India Conference: 12–13 February 2026

About Water Today Pvt. Ltd.

Water Today Pvt. Ltd. is a leading B2B media and events platform focused on water, wastewater, renewable energy, and sustainability. Through its exhibitions, conferences, and knowledge initiatives, Water Today connects technology providers, policymakers, and end-user industries, promoting innovation, collaboration, and sustainable growth across infrastructure sectors.
