

Sacramento Aesthetic Surgery Unveils High Extended SMAS Facelift by Expert Dr. Hause for Natural Rejuvenation

Discover the advanced facelift technique designed for ultimate facial harmony, offering long-lasting, natural results with unparalleled expertise.

Sacramento, California Jan 31, 2026 ([Issuewire.com](https://www.issuewire.com)) - Sacramento Aesthetic Surgery, led by the esteemed [Dr. Donald Hause](#), announces the availability of its renowned High Extended SMAS [Facelift procedure](#), tailored to meet the aesthetic needs of patients in the **Midtown Sacramento area**. As one of less than 1% of surgeons globally who can perform this sophisticated technique, Dr. Hause provides a unique approach to facial rejuvenation, melding over two decades of surgical expertise with the latest advancements to offer natural and enduring results.

Renowned as a leader in aesthetic surgery, Dr. Hause's High Extended SMAS Facelift elevates the traditional facelift by repositioning deeper facial structures for a revitalized appearance. With rigorous training under Dr. Bruce Connell, the originator of this advanced technique, Dr. Hause has positioned his practice at the forefront of plastic surgery innovation, offering patients in Sacramento unparalleled care and results that are both harmonious and transformative.

A significant concern for many considering facial rejuvenation is the fear of an unnatural "over-operated" look. However, the High Extended SMAS Facelift addresses these fears head-on. By reconstructing the underlying facial architecture rather than merely tightening the skin, Dr. Hause achieves results that

preserve the patient's natural expression while restoring youthful contours, effectively enhancing the face and boosting self-confidence.

"In the realm of facial rejuvenation, technical skill must go hand-in-hand with a refined aesthetic sense," stated Dr. Donald Hause. "At Sacramento Aesthetic Surgery, our emphasis is on procedures that offer long-lasting and natural results, using techniques perfected over years of practice and specialization."

Looking ahead, Sacramento Aesthetic Surgery remains committed to maintaining its leadership in the field by focusing on patient-centered care and continuous innovation. The practice's mission underscores a dedication to enhancing patients' lives through trusted relationships, personalized treatment plans, and the unmatched expertise of Dr. Hause.

Central to the practice's success is Dr. Hause's mastery of complex techniques such as the High Extended SMAS Facelift. Unlike traditional methods that often lead to the drawn-back appearance, this procedure addresses core structural issues by elevating the muscle and fat layers, offering results that are subtle yet remarkably effective and maintainable over many years.

"Tapping into the deep trust of the Sacramento community, we prioritize not just aesthetic improvement, but also the overall well-being of our patients," said Megan Felder, spokesperson for Sacramento Aesthetic Surgery. "Through our advanced procedures, we're enhancing the quality of life for our clients, helping them look and feel their best."
