Like the mighty Big Dipper shining brilliantly across the sky, some stars never fade—no matter how far away their light shine. Howard Hewett’s music continues to guide, inspire the world and share powerful stories through his lyrics. This Grammy Award winner and he charted the Billboard. His discography songs are incredible. Like “Forever and Ever,” and my favorite by the group he was in called “Shalamar in 1980. We love the song “ For The Lover in You”.
