

Shandong Kebang Chemical: Leading the woodworking adhesive industry with professionalism and innovation

Linyi, Shandong Jan 23, 2026 ([Issuewire.com](https://www.issuewire.com)) - Shandong Kebang Chemical: Leading the woodworking adhesive industry with professionalism and innovation2025-07-26

In modern industrial production, industrial adhesives are increasingly widely used, but users often face many confusions during use, such as the service life of bonded workpieces, the odor and water vapor treatment of dry adhesives, the on-acting time of adhesives and the shelf life of the adhesives. As a technology-based enterprise integrating R&D, production and sales, Shandong Kebang Chemical Co., Ltd. has always adhered to the concept of "professional, innovative and win-win" since its establishment of the "Natejia" brand in 2013, and has been continuously deepening its efforts in the field of woodworking adhesives, bringing reliable solutions to the industry and users with excellent products and services.

Shandong Kebang Chemical Co., Ltd. is committed to becoming an enterprise with outstanding influence in the field of woodworking adhesives. Over the years, the company has been constantly pursuing and surpassing the development path of the "Natejia" brand. All indicators of its "Natejia" brand ply [Wood Adhesives](#) have met the high standards of the international

industry - the European D4 standard and the Japanese JAS standard, which fully demonstrates the

company's hard-core strength in product quality and also provides users with a solid guarantee for the service life of bonded workpieces. Because the service life of industrial adhesives is closely related to the quality of adhesives, the "Natejia" brand can greatly extend the reliable use time of bonding workpieces with high quality.

In response to the problem that dry adhesive emits water vapor and irritating odors that bother construction workers, Shandong Kebang Chemical has relied on its professional R&D capabilities and innovative spirit to continuously optimize the formula during product R&D process, striving to reduce the impact of the product on the human body. At the same time, the company will also convey scientific construction methods to users, such as ventilation in advance and allowing workers to wear masks, reflecting its "win-win" concept for the health of construction workers.

In terms of adhesive onset time, different adhesives and adhesive materials will vary. Shandong Kebanghua is a professional manufacturer and is well aware of the needs of different users. Its rich product series can meet the requirements for onset time in different scenarios. Whether it is a product that requires 15-20 minutes, 1 hour, or a few seconds to quickly stick, it can provide users with a suitable choice.

Regarding the storage period and environmental protection of adhesives, Shandong Kebang Chemical always emphasizes following the product instructions. The company strictly controls the production and storage links to ensure the stable performance of the product during the shelf life. At the same time, it will also provide professional purchasing guidance for purchasing personnel to help them avoid pitfalls, reflecting the company's professional services.

In the future, Shandong Kebang Chemical Co., Ltd. will continue to be guided by the concept of "professional, innovative and win-win" and continue to explore in the field of woodworking adhesives to provide the industry with better products and services, and help the efficiency and safety of wood production.
