Las Vegas, Nevada Jan 6, 2026 ([IssueWire.com](https://www.issuewire.com)) - Summerlin Dental Solutions, a premier dental practice serving Summerlin and the greater Las Vegas community, announced today that it has been recognized with new 2025 Las Vegas Review Journal Best of Las Vegas/Summerlin honors for Best Dentist/Dental Office, Best Cosmetic Dentist, and Best Customer Service. These awards reinforce the practice's longstanding reputation for clinical excellence, cosmetic artistry, and patient-first care, and they reflect a sustained commitment to elevating the dental experience for families and professionals across Southern Nevada.

Founded on the belief that dentistry should be modern, comfortable, and highly personalized, Summerlin Dental Solutions has proudly served the Summerlin and Las Vegas area since 2000. Led by Dr. Marianne Cohan, DDS, the practice is backed by more than 30 years of experience and a deep local presence, with Dr. Cohan practicing in the area since 1996. Over the years, the office has become known for combining advanced technology with a warm, welcoming environment that helps patients feel confident, informed, and respected at every stage of care.

"Winning Best of Las Vegas recognition in multiple categories is an honor we take seriously because it comes from the community we serve," said Dr. Marianne Cohan. "Our team's focus has always been to make dentistry feel approachable and empowering. We use leading technology and a compassionate, customized approach so patients can make confident decisions about their health and their smiles."

Recognized 19 Times, More Than Any Practice in Nevada

Summerlin Dental Solutions has been voted the Las Vegas Review Journal's Best of Las Vegas 19 times, more than any other dental practice in the state of Nevada. The practice's latest recognition for Best Dentist/Dental Office, Best Cosmetic Dentist, and Best Customer Service underscores a rare combination of clinical precision, aesthetic excellence, and a consistently high standard of patient experience.

These awards also reflect the practice's strong reputation among patients seeking both general dentistry and advanced cosmetic transformations. Services include preventive care, periodontal care, Invisalign, bridges, dentures, anti-aging dentistry, all-on-4 implants, restorative dentistry, fillings, crowns, veneers, whitening, smile makeovers, dental implants, and laser dentistry where appropriate.

Whether patients need preventive care, restorative solutions, or comprehensive smile design, Summerlin Dental Solutions is known for delivering results that look natural, feel comfortable, and support long-term oral health.

Advanced Technology That Improves Comfort, Accuracy, and Outcomes

A cornerstone of the Summerlin Dental Solutions approach is the use of advanced dental technology to support accuracy, patient comfort, and predictable outcomes. Patients benefit from state-of-the-art diagnostic and treatment tools that help reduce guesswork, improve efficiency, and deliver a more comfortable experience.

Key technologies include:

3D CBCT imaging: Three-dimensional cone beam CT imaging provides highly detailed views of the jaw, teeth, and surrounding structures. This supports more precise planning for procedures such as implants, complex restorations, and comprehensive treatment cases.

TRIOS digital scanning: The practice uses digital scanning to replace traditional impressions, reducing discomfort and improving the fit. Patients appreciate the convenience of modern digital workflows and the clarity that comes with visualizing their own teeth in real time.

Smile Design software: Smile planning tools allow patients to preview changes and understand options before committing to treatment. This helps align expectations and supports a collaborative approach to cosmetic dentistry.

AI-assisted radiology: Advanced imaging support provides a “second opinion”-style layer of insight, helping identify potential concerns and supporting more informed clinical decisions.

Laser dentistry: Laser-assisted care supports precise and comfortable treatment for selected procedures, often minimizing invasiveness and supporting efficient healing.

By bringing these technologies together under one roof, Summerlin Dental Solutions offers patients a more modern, transparent, and confidence-building dental experience. The result is care that is not only high-quality but also easier to understand and easier to say yes to.

Cosmetic Dentistry with an Artist’s Eye and a Clinician’s Discipline

Summerlin Dental Solutions is widely recognized for its cosmetic dentistry, from subtle enhancements to full smile makeovers. Patients seeking veneers, crowns, whitening, and comprehensive cosmetic care often choose the practice for its blend of aesthetics and function. The office’s cosmetic services are built on careful planning, detailed communication, and an emphasis on natural-looking outcomes that fit each patient’s face, personality, and lifestyle.

Dr. Marianne Cohan is an Accredited Member of the American Academy of Cosmetic Dentistry (AACD) and a member of the American Academy of Facial Esthetics (AAFE), the American Academy of Implant Dentistry (AAID), and the Academy of General Dentistry (AGD). These affiliations reflect a commitment to continuing education, advanced clinical standards, and a patient-centered approach to both general and cosmetic dentistry.

General Dentistry Built for Long-Term Health

While the practice is known for cosmetic excellence, Summerlin Dental Solutions also delivers comprehensive general dentistry focused on prevention, education, and long-term oral health. Regular exams, cleanings, advanced imaging, and personalized treatment planning help patients maintain healthy smiles for life. The practice emphasizes clear communication and thoughtful guidance, ensuring patients understand options and feel supported in their decisions.

“We believe dentistry is more than fixing teeth,” Dr. Cohan said. “It’s about improving overall health, confidence, and quality of life. Our goal is to deliver care that patients trust, with results that last.”

BBB Accredited with an A+ Rating

Summerlin Dental Solutions has been BBB accredited with an A+ rating since 2025, reinforcing the practice’s focus on trust, transparency, and consistent service. The practice also notes that it has been honored as a 19-time Best of Las Vegas winner, reflecting a long history of recognition in the community while continuing to build on that record with the most recent awards.

A Patient Experience Built on Comfort and Personalization

Beyond awards and technology, Summerlin Dental Solutions is defined by its patient experience. The office is designed to feel welcoming, calm, and professional, with a team trained to provide supportive guidance and a highly personalized approach. From scheduling to follow-up, the practice prioritizes responsiveness, clarity, and a strong sense of respect for each patient's time and comfort.

From the beginning, philosophy has been simple: combining advanced technology, compassionate care, and personalized treatment to deliver smiles that last a lifetime. That philosophy continues to guide the practice today as it expands access to cosmetic and general dentistry for the Summerlin and Las Vegas communities.
