

TGA Kitchens & Remodeling Expands 2026 Remodeling Availability in Tampa

Company cites shifting local market conditions and steady national remodeling demand as more homeowners choose to improve their current homes.

Tampa, Florida Jan 6, 2026 ([Issuewire.com](https://www.issuewire.com)) - TGA Kitchens & Remodeling today announced expanded 2026 remodeling availability for homeowners in Tampa, including kitchen remodeling, bathroom remodeling, and kitchen cabinet upgrades.

Local housing data suggests more homeowners are taking a closer look at improving the homes they already own. In November 2025, Tampa's median sale price was \$418,400, and homes averaged 63 days on market, according to Redfin. When homes take longer to sell, some owners choose upgrades that improve day-to-day living and help support resale appeal.

National remodeling demand also remains strong. Harvard's Joint Center for Housing Studies reported that total homeowner remodeling spending is expected to reach \$524 billion in early 2026, a record high. These conditions continue to support homeowner interest in projects that improve comfort, function, and long-term value.

TGA Kitchens & Remodeling said the expanded availability will focus on three common homeowner priorities:

- **Kitchen remodeling** to improve layout, storage, and functionality:

- **Bathroom remodeling** to update showers, vanities, lighting, and finishes:

- **Kitchen cabinet** projects to improve storage, durability, and overall design:

“Homeowners want spaces that work better every day,” said Tomer Amar, owner of TGA Kitchens & Remodeling. “In 2026, our goal is to keep the remodeling process clear, organized, and predictable from planning through final walkthrough.”

The company noted that kitchens and bathrooms remain high-impact areas for reinvestment. The 2025 Cost vs. Value Report lists a national average 113% cost recouped for a midrange minor kitchen remodel, though results vary by market and project scope.

To support early planning, TGA Kitchens & Remodeling said it continues to invest in digital project workflows that help clients review layout options, selections, and timelines before construction begins. The company added that AI-assisted planning tools may help speed up early-stage option reviews and reduce back-and-forth during the decision phase, while final project decisions remain guided by client selections and field conditions.

TGA Kitchens & Remodeling encourages homeowners to begin planning early for 2026 projects, since lead times can vary based on design complexity, material availability, and permitting requirements.

About TGA Kitchens & Remodeling

TGA Kitchens & Remodeling is a Florida remodeling company serving the Tampa Bay area with kitchen remodeling, bathroom remodeling, and cabinetry solutions. The company provides project planning support, material selection guidance, and managed installation.
