

Top 10 Bearing Manufacturers in China

Shanghai, China Jan 23, 2026 (IssueWire.com) - China is one of the world's largest producers and exporters of bearings, with thousands of manufacturers ranging from small specialized suppliers to large global brands. Thanks to China's robust industrial base, continual technological advancement, and extensive export networks, Chinese bearing makers have secured strong positions in domestic and international markets. Chinese bearings are widely used in automotive, industrial machinery, wind power, rail transport, and consumer electronics industries.

Are you looking for Chinese bearing manufacturers or reliable bearing suppliers? As one of the world's largest bearing manufacturing bases, China boasts a large number of bearing manufacturers with export experience and complete production systems.

When selecting a suitable bearing manufacturer, it is recommended to focus on the following aspects: whether the company possesses quality certifications such as ISO and IATF; whether it has stable production capacity and a research and development team; and whether it has a mature international export and logistics system. Conducting sample testing and quality verification before placing bulk orders for bearing products is a crucial step in reducing procurement risks.

To help buyers make efficient decisions, we have compiled and analyzed a list of leading bearing manufacturers in China. Read this article to quickly understand high-quality bearing suppliers in China and choose a safer and more competitive partner for your company.

Company	Established	Year	Location	1	Shanghai Trans Power CO.,LTD
(TP)	1999	Shanghai	2	C&U Group Co., Ltd.	1984 Shanghai
(ZWZ)	1938	Dalian / Wafangdian	3	LYC Bearing Corporation	1950 Luoyang, Henan
			4	Wafangdian Bearing Group Co., Ltd.	1993 Harbin
			5	Xibei Bearing Co., Ltd.	1996 Ningxia
			6	Tianma Bearing Group Co., Ltd.	1996 Hangzhou
			7	Qianchao Bearing	1987 Zhejiang
			8	Luoyang Bearing Science & Technology Co., Ltd.	1958 Zhejiang
			9	Luoyang Bearing Group Co., Ltd.	1958 Shandong
			10	Huanchi Bearing Group Co., Ltd.	

Here's our curated list of the Top 10 Bearing Manufacturers in China (in no particular order):

1: Trans Power

Trans power is a professional bearing and automotive spare parts manufacturer supplying the global aftermarket. The company specializes in:

- [automotive bearings](#) and wheel hub units
- [truck](#) and trailer bearings and parts
- [agricultural machinery bearings](#)
- industrial bearings
- customized non-standard spare parts

Key strengths include OEM & ODM capability, factories in China and Thailand, flexible MOQ, and technical customization for specific applications.

Email: info@tp-sh.com

Headquarters: China with factories in China and Thailand

Business type: OEM & ODM manufacturer

Target customers: wholesalers, distributors, automotive aftermarket

wheel bearing, hub assembly, center support bearing, clutch release bearing, tensioner bearing & pulley, truck bearing, agricultural bearing manufacturer

2. Renben Group Co., Ltd. (C&U Group)

Renben Group, widely known as **C&U**, is one of China's largest and most influential bearing manufacturers, with multiple production parks and more than 30,000 different part numbers for bearings of various sizes. Its bearings are widely applied in automotive, motors, household appliances, engineering machinery, and more.

Headquarters: Industrial Park, Fengcheng Town, Fengxian District, Shanghai, China

Tel: +86-021-5751-4699 (Customer Service)

3. Wafangdian Bearing Group Co., Ltd. (ZWZ)

Established in 1938, **ZWZ** is one of China's most historic and largest bearing companies, producing a

comprehensive range of bearings including ball bearings, roller bearings, and large-size bearings. Products are widely used in railways, automotive, wind power, and heavy machinery.

Website: <https://www.zwz-bearing.com/en/zwz-bearing.com> **General Contact:** hot line 400-167-3377zwz-bearing.com4.LYC Bearing Corporation (Luoyang Bearing Corp.)

Founded in the 1950s, LYC is one of China's leading high-precision bearing manufacturers. Its product range covers deep groove ball bearings and other types used in wind power, rail transit, automobiles, mining, and industrial equipment

LYC BEARING

Address: 96 Jianshe Road, Jianxi District, Luoyang, Henan, China

Tel: +86-379-64984177

Email: sales@lyc-bearing.com

5. Harbin Bearing Group Co., Ltd. (HRB)

Based in northern China, **HRB** produces a variety of bearings, including deep groove ball bearings and precision industrial bearings. The company's products are used across heavy machinery, automotive, agricultural equipment, and machine tools.

Website: <https://www.hrbchina.com> **Tel:** +86-451-87902581 **Address:** Harbin, Heilongjiang Province, China **Overview:** Major player in China's bearing industry, offering ball, roller and specialty bearings for machinery, automotive, mining and heavy sectors

Xibei Bearing Co., Ltd. Is located in Yinchuan city, the capital of Ningxia province, which is founded in 1965. It is the main manufacturer in China bearing industry, and the first listed company in China's bearing industry.

Website: <http://en.nxz.com.cn> **Address:** No.630, Beijing West Road, Yinchuan, Ningxia, China **Tel:** +86-951-2020454 **Overview:** Listed bearing manufacturer with products ranging from rod end to specialized industrial bearings.

7. Qianchao Bearing — Wanxiang Group Corporation (QC Bearing)

Part of the well-established **Wanxiang Group**, QC Bearing produces a wide range of automotive and industrial bearings and has a strong reputation for large-volume supply capacity, competitive pricing and export readiness. Wanxiang Qianchao (000559) was listed and traded on the Shenzhen Stock Exchange. Universal joints bearing, transmission shafts, brakes, fuel burners, exhaust systems and other products were recognized as Chinese famous brand products. In 2005, the "Qianchao" trademark was recognized as a well-known brand. Trademark, Wanxiang Qianchao has been committed to the research and development and manufacturing of auto parts. Products from parts to components to system integration, professional production, thin-walled serialization, modular supply, products cover universal joints, wheel hub units, Bearings, automotive chassis and suspension systems, braking systems, transmission systems, exhaust systems, fuel tanks, construction machinery components and other automotive system components and assemblies, is one of the largest independent automotive component suppliers in China.

Tel: 0571-82832999

8. Zhejiang Tianma Bearing Group Co., Ltd. (TMB)

TMB is a major bearing maker offering a wide portfolio of ball and roller bearings. With strong engineering capabilities and large production capacity, the company serves both domestic and global customers with competitive pricing and reliable quality.

Website: <http://www.tmb-bearing.com> **Address:** Zhejiang, China **Phone:** +86 573 8460 1818 **Products:** deep groove ball bearings, tapered roller bearings **Advantages:** large production capacity and broad product range

9. Luoyang Bearing Science & Technology Co., Ltd. (ZYS)

Originally started as a research institute, **ZYS** focuses on high-reliability and high-precision bearings for demanding applications including aerospace, mining, rail transit, and heavy machinery industries. The company focuses on the development of high-performance bearing products for key hosts of the national economy and national defense, and mass-produces various types of high-end equipment bearings and components with an inner diameter of 0.6mm to an outer diameter of 6.8 meters. The main business is the research, development, production and sales of precision thin-wall special bearings, high-speed machine tool spindles, bearing special equipment and testing instruments, bearing test machines and special bearing materials. The products are widely used in aerospace, ship weapons, machine tools, Wind power generation, mining metallurgy, petrochemicals, medical equipment, automobiles and rail transportation, engineering machinery, intelligent manufacturing services and other fields.

Website: <https://www.zys-bearing.com>

Address: Luoyang, Henan, China

Phone: +86 379 6488 3388

Email: sales@zys.com.cn

Specialty: high-precision bearings

Applications: aviation, aerospace, high-speed machine tools

10. Huanchi Bearing Group Co., Ltd. (HCH Bearing)

HCH Bearing specializes in deep groove ball bearings and automotive bearings with stable performance. The company's bearings are used in electric motors, automotive assemblies, and general industrial machinery.

Website: <https://www.hchbearing.com> **Address:** Linqing, Shandong, China **Phone:** +86 635 210

Strength: deep groove ball bearings in large volumes **Markets:** electric motors, automotive, household appliances

Since 1938, China's bearing industry has accumulated extensive production technology and manufacturing experience. Today, Chinese bearings are widely applied across demanding sectors including **military, aerospace, automotive, industrial machinery, agriculture, wind power, and heavy equipment**, with performance levels suitable even for **high-precision applications**.

Compared with well-known international brands such as **SKF, FAG, and NSK**, bearings manufactured in China now offer a highly competitive combination of **stable quality, broad product coverage, customization flexibility, and cost efficiency**. The product range includes, but is not limited to:

- Deep groove ball bearings
- Self-aligning ball bearings
- Cylindrical roller bearings
- Spherical roller bearings
- Needle roller bearings
- Angular contact ball bearings
- Tapered roller bearings
- Thrust ball bearings and thrust roller bearings
- CARB toroidal bearings
- Full complement cylindrical roller bearings
- Cross roller bearings and slewing bearings
- Linear motion bearings and guides
- Self-lubricating bearings
- Pillow block bearings
- Spherical plain bearings and rod ends
- Cross shaft bearings and universal joint bearings
- Bearing housings
- Cam follower bearings
- Thin section bearings

As a professional **bearing and automotive spare parts manufacturer**, **Trans Power** leverages this strong industrial foundation by combining **advanced manufacturing know-how, strict quality control, and OEM & ODM capabilities**. With production bases in **China and Thailand**, Trans Power is able to support global customers with **flexible sourcing solutions, tariff-optimized supply, and stable delivery for the international aftermarket**.

Whether you are sourcing **automotive bearings, truck and trailer bearings, agricultural bearings**,

or customized bearing solutions, Trans Power is committed to being a reliable long-term partner, delivering consistent quality, technical support, and competitive value to your business.
