

Al Rabiya launches Vunyx® colored paint protection films by Onyx Coating in the UAE for car care professionals

Sharjah, United Arab Emirates Feb 2, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Al-Rabiya Auto Accessories](#), a leading distributor and supplier of premium car care products in the Middle East, today announced the launch of [Vunyx® Colored Paint Protection Films](#) (PPF) by Onyx Coating in the UAE. The new product line brings advanced single-layer colored PPF technology to local professional installers, car care specialists, and detailers, combining high-performance protection with visually distinctive finishes.

Vunyx® Colored Films are manufactured using single-layer casted color TPU technology, integrating color directly into the TPU base film. This ensures stable, true-to-design color, eliminating fading and inconsistencies common with printed or layered colored PPFs, while allowing installers to deliver high-quality results for every vehicle.

Designed for professional installers

Al-Rabiya emphasizes that Vunyx® Colored Films are engineered to help installers achieve predictable, efficient, and precise installation results. The professional-grade, repositionable adhesive allows for easy adjustments during application, minimizing errors and reducing rework time in workshops.

Key features of Vunyx® colored paint protection films include:

- Single-layer casted color TPU for true-to-design finishes
- Heat-activated self-healing technology
- Total thickness: 7.5 mil (150µm TPU, 25µm adhesive, 15µm top coat)
- Chemical, weather, and UV resistance (tested up to 2000h QUV)
- Available in high-gloss, matte, and stain-resistant finishes
- White or black, non-yellowing adhesive
- Durability of 5–8 years with a 5-year warranty

Why local installers should consider Vunyx® colored films

“Vunyx® Colored Films give installers in the UAE access to the latest PPF technology with consistent, high-quality results,” said Ahmed Allaf, Sales Manager at Al-Rabiya Auto Accessories. “This product allows local professionals to expand their service offerings, meet growing customer demand for colored PPF, and unlock business opportunities with premium, reliable solutions.”

By offering both traditional [paint protection film](#) and colored paint protection film, Al-Rabiya is helping workshops and detailers diversify their services, strengthen their competitiveness, and deliver enhanced aesthetic options to car owners.

“At Al-Rabiya, we are committed to providing our partners with the best products and support,” added Allaf. “With Onyx Coating’s Vunyx® Colored Films, installers in the UAE can confidently deliver top-tier colored PPF installations while growing their business.”
