

Alignmint Launches Free All-in-One Nonprofit Software With True Fund Accounting

New platform replaces patchwork of QuickBooks, spreadsheets, and disconnected tools with a single modern solution for nonprofits, churches, schools, and fiscal sponsors — free for organizations up to \$100K in annual donations.

Nashville, Tennessee Feb 13, 2026 ([Issuewire.com](https://www.issuewire.com)) - Alignmint, a new nonprofit technology company, today announced the launch of its all-in-one nonprofit management platform at getalignmint.org. The software combines true fund accounting, donor CRM, volunteer management, event ticketing, email marketing, and AI-powered tools into a single, modern interface — and is free for nonprofits with up to \$100,000 in annual donations.

"Nonprofits have been forced to cobble together QuickBooks, spreadsheets, and half a dozen disconnected tools just to manage their operations," said Steven Leipzig, founder of Alignmint. "We built Alignmint to be the last software a nonprofit will ever need."

The platform includes features typically spread across multiple expensive subscriptions:

- True fund accounting with restricted and unrestricted fund tracking
- Donor CRM with complete giving history, communication tracking, and a self-service donor portal
- Volunteer management with hour logging, digital waivers, and a volunteer portal
- Event ticketing with registration, promo codes, waitlists, and integrated payment processing
- Email marketing campaigns with personalization and performance tracking
- AI-powered grant finder and grant writing assistant
- Financial reporting including balance sheets, income statements, and cash flow statements
- Check deposit scanning with OCR
- Donation page builder with drag-and-drop editor

Alignmint is purpose-built for the nonprofit sector, addressing the unique accounting and compliance requirements that general-purpose tools like QuickBooks cannot handle natively. The platform supports fiscal sponsors managing multiple sponsored organizations with complete data isolation and consolidated reporting.

The company offers three pricing tiers: a free Starter plan for organizations under \$100K in annual donations, a flat-fee Pro plan, and custom Enterprise pricing for fiscal sponsors. Founding members receive 40% off Pro pricing, locked in permanently.
