

## Dr. Lucas Minig Launches Global Online Platform for Advanced Gynecologic Oncology Care

Personalized, Minimally Invasive Cancer Treatments Now Accessible Worldwide from Valencia, Spain

**Valencia, Spain Feb 14, 2026 ([Issuewire.com](https://www.Issuewire.com))** - Dr. Lucas Minig, one of the world's leading gynecologic oncologists and surgical specialists, has expanded his international healthcare presence

with the launch of his comprehensive online platform at [care.drucasminig.com](http://care.drucasminig.com). The site is designed to serve patients worldwide, offering access to personalized cancer care, advanced surgical options, and streamlined consultation services from Spain.

Dr. Minig brings more than 20 years of extensive specialized training and clinical experience in complex gynecological cancers and benign conditions of the female reproductive system. Trained in elite cancer centres including the European Institute of Oncology (Milan, Italy) and the National Cancer Institute (NIH/NCI, USA), he combines world-class surgical expertise with a compassionate, patient-focused philosophy.

The newly promoted online platform emphasizes:

**Advanced Surgical Treatments:** Dr. Minig and his multidisciplinary team provide highly complex procedures including minimally invasive laparoscopic and robotic surgeries, radical cytoreduction for advanced ovarian cancer, fertility-sparing options, and more.

**Comprehensive Cancer Care:** From diagnosis through follow-up, patients can access coordinated multidisciplinary care plans that integrate surgical precision with emotional and lifestyle support.

**Global Patient Access:** International patients can easily schedule video consultations, request second opinions, and coordinate care plans — all tailored to individual medical histories and treatment goals.

**Personalized and Human-Centered Care:** With an emphasis on dignity, clarity, and recovery quality, the platform guides patients through every step of their journey — from clinical decision-making to post-surgical support.

“We are committed to expanding access to truly personalized oncological care,” said Dr. Lucas Minig. “Each patient’s story is unique, and our goal is to blend advanced surgical innovation with compassionate support at every stage.”

The launch of [care.drucasminig.com](http://care.drucasminig.com) reinforces Valencia’s growing reputation as a hub for medical excellence and underscores Dr. Minig’s position as a global leader in gynecologic oncology. Patients from around the world now have streamlined access to high-quality medical expertise, regardless of geographic boundaries.
