

# EDELWEIS Complete Luggage Collection Now Available for Order

From a boy's first flight to timeless travel companions crafted for extraordinary journeys

Los Angeles, California Feb 13, 2026 ([Issuewire.com](https://www.issuewire.com)) - **EDELWEIS** announces expanded availability of its [complete luggage collection](#), featuring the acclaimed Lustré and L 'Apogée series. Orders open today for all models, with fast delivery available.

Born from a moment of wonder when an eleven-year-old boy stepped onto his first airplane and declared, "We are the greatest!" as it lifted into the sky, EDELWEIS captures that extraordinary feeling of travel.

[Lustré Collection](#) The aluminum series features carry-on and check-in sizes in silver and black finishes. Each piece showcases precision aluminum construction with refined aesthetics that develop character through travel. Like the rare Edelweiss flower that could only be reached through courage and determination, these pieces represent enduring value earned through exceptional craftsmanship.

[L 'Apogée Series](#) The contemporary collection addresses modern travel needs through intelligent polycarbonate construction and thoughtful organization. Available in carry-on and larger check-in sizes, each piece balances lightweight portability with protective strength.

An inspiration drawn from the timeless language of Toile de Jouy, now carried across the world. Originating in 18th-century France, Toile de Jouy was more than ornament—it was storytelling. Masters such as Jean-Baptiste Huet composed intricate scenes of travel, nature, and daily life, capturing the spirit of an expanding world with remarkable precision and grace.

At [EDELWEIS](#), this heritage is not displayed—it is experienced. The traditional art is reimagined with its own story and applied within the luggage, printed on refined peach-skin interior cloth, chosen for its soft hand, durability, and quiet comfort. Upon opening each piece, a world unfolds: panoramic landscapes, distant horizons, and global scenery woven into every detail. What once adorned European salons now travels internationally, crossing borders and time zones, becoming part of the modern voyage.

Manufacturing maintains EDELWEIS's established quality standards, guided by the founder's father's principle: "Once you begin, only a quality outcome marks the job as truly finished." Each piece reflects precision engineering designed to accompany travelers from the edges of Antarctica to the Arctic's silent expanse.

Each piece includes comprehensive documentation and 10-year warranty coverage protecting against manufacturing defects.

Should any issue arise from EDELWEIS craftsmanship during this period, full repair or replacement is provided. After warranty expiration, the team of EDELWEIS has now introduced a creative & helpful after expiry warranty - customers receive 30% off their next suitcase purchase, ensuring continued partnership with travelers who trust the brand across decades of journeys.

*About EDELWEIS: Founded on the principle "Love & Courage", EDELWEIS creates premium luggage for discerning travelers who value substance over spectacle. Born from a moment of childhood wonder, the company transforms the magic of travel into lasting companions and is now building a design powerhouse.*
