

# Eurex Shutters Introduces Advanced Flood Barrier Door Dam Solutions

Comprehensive Flood Mitigation and Hurricane Shutter Systems Now Available for Homeowners in Fort Myers, Naples, and SWFL.

**Lehigh Acres, Florida Feb 13, 2026** ([Issuewire.com](https://www.Issuewire.com)) - Eurex Shutters, a leading provider of protective home solutions, announced the expansion of its flood defense product line, now offering installation of the DamEasy® **Flood Barrier Door Dam**, an industry-grade flooding protection system designed to enhance residential safety and resilience in hurricane-prone regions.

As coastal and low-lying communities across Southwest Florida face increasing threats from seasonal storms, rising water levels, and heavy rainfall, Eurex Shutters' custom Flood Barrier Door Dam offers homeowners a reliable and scalable option for mitigating flood risk. This innovative solution is engineered to work seamlessly with existing hurricane preparedness measures, including premium hurricane shutters, creating an integrated defense system that protects property, family, and peace of mind.

"Our mission has always been to deliver the most effective and dependable home protection systems

available,” said Tommy Tessner, Vice President of Eurex Shutters. “By offering the Flood Barrier Door Dam system, we are giving homeowners in Fort Myers, Naples, and the greater SWFL region a proactive, robust tool to defend against flood damage, especially when combined with our trusted hurricane shutter installations.”

### Key Features of Eurex Shutters’ Flood Barrier Door Dam:

- **Superior Flood Protection:** Engineered to block rising water at entry points such as doors, garages, and patios, reducing the risk of costly structural and interior damage.
- **Custom Fitting:** Tailored to the unique architectural specifications of each home, ensuring a secure and reliable barrier against water intrusion.
- **Durable Construction:** Built from industrial-grade materials designed to withstand high water pressure and corrosive elements common in coastal environments.
- **Easy Deployment:** Simple installation and rapid setup allow homeowners to prepare quickly as storm threats emerge.
- **Complementary to Hurricane Shutters:** Works in tandem with hurricane shutter systems to provide all-around defense against storm impacts and flooding.

The DamEasy® [Flood Barrier Door Dam](#) is ideal for homeowners who are serious about flood defense and want peace of mind during hurricane season. This system forms an essential part of a comprehensive preparedness plan that includes fortified windows, impact-resistant doors, and professional hurricane shutter installation.

### About Eurex Shutters
