

## **G&H Construction Brings Spring Remodeling Expertise to Corpus Christi Homeowners**

Three-generation coastal construction company offers kitchen, bathroom, and outdoor living renovations built for Texas Gulf Coast conditions.

**Corpus Christi, Texas Feb 18, 2026** ([IssueWire.com](http://IssueWire.com)) - G&H Construction, a trusted general contractor with three generations of coastal building expertise, announces its focus on spring remodeling projects for Corpus Christi homeowners. With 30 years of experience transforming coastal homes, the family-owned company emphasizes that spring provides ideal timing for renovations that enhance indoor spaces and extend living areas outdoors.

Founded by Rocky Gudim, CEO, alongside Lead Designer Melinda, G&H Construction brings structural expertise and design vision to remodeling projects throughout Corpus Christi and the surrounding metropolitan area.

"Spring is when Corpus Christi homeowners start thinking about refreshing their spaces and getting ready to enjoy outdoor living," said Rocky Gudim, CEO of G&H Construction. "Whether you're updating a kitchen, transforming a bathroom, or creating outdoor entertainment areas, we bring three generations of coastal construction knowledge to ensure your renovation is built to last in Gulf Coast conditions."

G&H Construction specializes in kitchen renovations that improve functionality and coastal aesthetics, bathroom remodeling that creates spa-like retreats resistant to humidity, outdoor living spaces including patios and entertainment areas, and coastal-appropriate construction using materials that withstand salt air and moisture.

Melinda's design expertise helps Corpus Christi homeowners create spaces that embrace coastal living. "We design kitchens that flow seamlessly to outdoor areas, bathrooms that feel like beach retreats, and outdoor spaces that let families enjoy our beautiful weather year-round," Melinda explained.

The company's three-generation coastal knowledge ensures projects incorporate proper moisture barriers, ventilation systems, and materials specifically chosen for Gulf Coast environments. This expertise prevents common coastal remodeling problems like mold growth and material deterioration.

Kitchen remodeling includes layout redesigns, custom cabinetry built for coastal humidity, modern lighting, and flooring suited for coastal conditions. Bathroom renovations feature proper ventilation, expert waterproofing, and materials resistant to moisture damage.

Spring brings increased focus on outdoor living spaces. G&H Construction designs and builds patios, decks, and entertainment areas that withstand Gulf weather while providing functional spaces for gatherings and coastal lifestyle enjoyment.

Rocky's decades of hands-on experience inform material recommendations and construction approaches. "If we wouldn't build it for our own family, we won't build it for yours," Gudim stated. "This philosophy defines how we approach every Corpus Christi project."

The company's core values of straightforward communication and transparent pricing guide every remodeling project. G&H Construction provides clear estimates and honest explanations of construction choices without hidden charges.

With 30 years in business, G&H Construction completes spring remodeling efficiently while maintaining quality craftsmanship. The team minimizes disruption while transforming homes into spaces families love for decades.

Together, Rocky and Melinda lead local craftsmen who share respect for quality and understanding of coastal construction. The generational approach ensures every Corpus Christi project benefits from

accumulated Texas coast wisdom.
