INNOVATIVE  
**RESEARCH**  
MENTORSHIP & CONSULTANCY

**KwaZulu Natal, South Africa Feb 25, 2026 ([IssueWire.com](https://www.IssueWire.com))** - Founded in 2022 by Aluncedo Zikhali and officially registered in 2026, [Innovative Research Mentorship and Consultancy \(Pty\) Ltd](#) is a premier academic support and research guidance organisation dedicated to helping students, early-career researchers, and academics succeed throughout their research journeys.

Innovative Research Mentorship and Consultancy (Pty) Ltd offers a full range of services across the research lifecycle, including research topic development, proposal writing, thesis and dissertation guidance, journal article preparation, conference paper support, and creation of research instruments such as questionnaires and interview guides. In addition, it provides essential administrative support, including NSFAS and NRF funding applications, university applications, and transcription services for qualitative research.

With a strong focus on personalised mentorship, practical skills development, and ethical research practices, Innovative Research Mentorship and Consultancy (Pty) Ltd helps clients reduce academic anxiety, improve research quality, and enhance completion rates for proposals, theses, and dissertations. By fostering independence, confidence, and long-term research skills, it empowers students and researchers to contribute meaningfully to knowledge production and societal development.

Operating with a client-focused, remote-friendly model, Innovative Research Mentorship and Consultancy (Pty) Ltd serves students and researchers across South Africa and beyond, ensuring accessible, high-quality support tailored to individual academic goals.
