Jason Brown, Grandson of James Brown, Redefines Musical Legacy Through High Profile Collaborations with Carl Cox and Laidback Luke and Much More.

Jason Brown, the grandson of James Brown, is forging a powerful modern path as an international DJ, producer, and cultural curator bringing one of the most influential legacies in music history into today's global dance scene.

Raised within the creative orbit of James Brown's groundbreaking catalog, Jason Brown has emerged as a trusted bridge between heritage and innovation, translating the timeless energy of funk and soul into modern electronic and club culture. His sound spans house, funk, soul, disco, hip-hop, Afrobeat, dancehall, soca, and global rhythms, delivered through high impact sets designed for clubs, festivals, and international audiences.

Beyond performance, Brown is the founder of Social Desert Camp, a desert based mini festival experience, and Hollywood After Hours, an event platform known for immersive, culture driven nightlife.

In 2025, Brown reached a defining moment in his career with the release of an official rework of James Brown's 1971 classic "Super Bad," titled "I Got Soul (Super Bad)", released via Dim Mak Records in collaboration with Laidback Luke, Universal Music, Primary Wave, and the James Brown Estate. The project was prominently featured in Billboard, which underscored Brown's unique position as both a contemporary electronic artist and a direct creative heir to one of music's most iconic catalogs.

The collaboration marked a rare moment where electronic music credibility and historic legacy converged with Brown entrusted to help usher his grandfather's music into the future while preserving its original soul and cultural weight.

Further amplifying this momentum, Brown delivered a standout remix for Carl Cox's "I'm Black and I'm Proud Say It Loud (Remixes)", released via Republic/UMe. As part of a project led by one of electronic music's most respected pioneers, Brown's remix reimagines the 1968 civil-rights anthem through a modern electronic lens honoring its message while expanding its reach to contemporary dance floors worldwide.

Together, the Carl Cox and Laidback Luke collaborations firmly position Jason Brown as a next generation legacy artist one who is not only connected by bloodline, but by proven creative trust at the highest levels of the music industry.

Jason Brown continues to expand his global presence through international performances, festival appearances, media features, and upcoming releases, carrying forward the James Brown legacy with intention, respect, and modern relevance.

#### About Jason Brown

Jason Brown is an international DJ, producer, and entrepreneur, and the grandson of James Brown. His work bridges historic soul and funk with contemporary electronic music through official releases, remixes, and live performances worldwide.
