Harrisburg, Pennsylvania Feb 19, 2026 (IssueWire.com) - *Letters to God: Quiet Moments in Written Conversation with God* by Steve is now available in print, offering readers a guided way to approach prayer through personal written reflection. Rather than presenting formal devotionals or theological instruction, the book invites readers to engage in a living conversation with God—honest, imperfect, and grounded in everyday moments of reflection.

A Practice of Prayer Through Writing

Written during a period of spiritual transition, *Letters to God* reflects Steve's search for a prayer practice that felt natural rather than ritualized. Each entry encourages readers to write their own letters to God, creating a personal practice of reflection and presence. The book shows prayer not as a performance, but as an ongoing, personal dialogue that anyone can participate in.

Prayer Without Performance

The book grew out of Steve's own struggle to establish a consistent prayer habit. New to his Christian faith after exploring a wide range of religious traditions, he wrestled with the expectation that prayer must follow a prescribed form. A shift in perspective—realizing that sincere prayer does not need to be formal—became the foundation of *Letters to God*.

By framing prayer as writing, the book guides readers to express themselves openly and directly. It is not a collection of lessons or examples to follow, but a tool to help cultivate an accessible, personal practice of connection with God.

An Invitation to Participate

Letters to God is structured as a series of reflective prompts and model letters, inviting readers to engage actively in their own spiritual practice. There is no linear narrative or fixed outcome. Instead, it offers space for doubt, gratitude, silence, and trust to coexist, allowing readers to explore prayer in a way that feels authentic to them.

Why It Matters

Many people struggle with prayer, not because of a lack of faith, but because of the pressure to “do it right.” *Letters to God* reframes prayer as a relationship rather than a ritual, emphasizing sincerity and personal engagement over structure. It is especially suited for readers who are new to prayer, returning to faith, or simply seeking a way to remain connected without feeling performative or constrained.
