

New Phase Solutions Earns Proudly South African Certification, Driving Digital Transformation

Midrand, Gauteng Feb 19, 2026 ([Issuewire.com](https://www.issuewire.com)) - [New Phase Solutions \(NPS\)](https://www.newphasesolutions.co.za), a consulting-led digital transformation and AI integration firm, is pleased to announce that it has officially attained Proudly South African certification, underscoring its dedication to advancing local economic development, supporting South African enterprises, and delivering world-class digital transformation solutions from within the country.

This achievement represents a significant milestone in New Phase Solutions' evolution as a trusted transformation partner to organizations across South Africa.

A Certification That Reflects Commitment

The Proudly South African certification is awarded to organizations that demonstrate strong local content, quality standards, ethical business practices, and a positive contribution to economic growth. For New Phase Solutions, the certification goes beyond recognition—it reaffirms the company's purpose of enabling South African businesses to harness technology, innovation, and strategic insight to compete and grow in a digital-first economy.

Founder's Statement

[Mr. Yanela Kakaza](#), Founder of New Phase Solutions, commented:

“Achieving Proudly South African certification is a proud moment for our team. From the beginning, our goal has been to establish a consulting-first digital transformation firm based in South Africa, focused on helping local businesses unlock value through intelligent systems, AI-powered automation, and optimized processes.”

What New Phase Solutions Delivers

New Phase Solutions operates beyond conventional web and mobile development. The company functions as a consulting-led digital transformation partner, supporting organizations to modernize operations, streamline processes, and adopt AI in a responsible and practical manner.

Core Service Areas:

- Digital Transformation Consulting
- Business Process Re-engineering
- Digital Strategy & Technology Roadmapping
- AI Consulting & AI Development
- AI Agent & AI Chatbot Development
- Business Process Automation
- Workflow Optimization
- API Integration & System Connectivity
- Managed IT & Cloud Support
- Back-Office & Operational Support
- E-Commerce & Enterprise Portal Development

Serving High-Impact Industries

New Phase Solutions works with startups, SMEs, and enterprise organizations across key South African sectors, including:

- Construction & Infrastructure
- Mining & Resources
- FinTech & Financial Services
- Diamonds & Jewellery
- Healthcare

- SMEs & Growth-Stage Businesses

Strengthening South Africa's Digital Future

As South Africa continues its digital transformation journey, New Phase Solutions seeks to serve as a strategic enabler for organizations pursuing structured modernization—not merely technology adoption.

With a strong emphasis on AI integration, workflow automation, and operational transformation, NPS partners with:

- Startups building scalable digital products.
- Enterprises optimizing legacy systems.
- Industry players modernizing operational workflows.
- Organizations seeking AI-enabled process improvements.

The Proudly South African certification further affirms NPS's position as a locally grounded, globally capable digital transformation partner.

About New Phase Solutions

New Phase Solutions is a South Africa-based consulting-led digital transformation firm specializing in AI integration, business process automation, managed IT services, and enterprise digital strategy. The company delivers outcome-driven transformation solutions aligned to industry-specific needs.
