

## NMS Management Services Announces Rebrand to NMS Screening & Compliance

New name reflects three decades of expertise in drug and alcohol testing, background screening, and regulatory compliance — and honors the legacy of founder Elaine Taule

**Greenacres, Florida Feb 26, 2026 ([IssueWire.com](http://www.IssueWire.com))** - NMS Management Services, Inc., a specialist in drug and alcohol testing, workplace screening, and DOT compliance since 1994, today announced its official rebrand to **NMS Screening & Compliance**. The new name better communicates the full scope of services the company has provided to businesses, municipalities, and transportation providers nationwide for more than 30 years.

“For years, our clients have known us as much more than a management services company,” said Howard Taule, President and Chief Financial Officer of NMS Screening & Compliance. “We build and manage comprehensive screening and [compliance programs](#) — from DOT drug and alcohol testing to national background checks. This new name tells our story more clearly and positions us for the future.”

### A Legacy of Service and Family Commitment

The rebrand carries deep personal significance for the Taule family. NMS was founded in 1994 by Elaine Taule, whose vision and dedication built the company into a respected name in the drug and alcohol testing industry. Following her passing, her son Howard Taule assumed leadership of the

organization, carrying forward her commitment to excellence, integrity, and client service.

“This rebrand is part of my mother’s legacy,” said Taule. “She built this company from the ground up with a belief that businesses deserve a partner they can trust to keep them compliant and protected. Renaming the company NMS Screening & Compliance honors her work by making our purpose unmistakable to every client who finds us.”

## **Industry Leadership and National Advocacy**

Howard Taule’s leadership extends well beyond NMS. He served as Treasurer of the National Drug & Alcohol Screening Association (NDASA) for nearly seven years, where he was responsible for the organization’s financial oversight, budgeting, and fiscal strategy. During his tenure, Taule played a key role in strengthening NDASA’s financial controls and supporting the governance that helps advance best practices across the drug and alcohol testing industry nationwide.

“Serving NDASA taught me the importance of operational discipline and financial stewardship in an industry where accuracy and compliance are everything,” Taule added. “I bring that same rigor to every client relationship at NMS.”

## **New Name, Same Trusted Partner**

While the name has changed, clients can expect the same comprehensive services and dedicated support they have come to rely on. These include full DOT compliance program management across all federally mandated modalities, Drug-Free Workplace program development, a full range of drug and [alcohol testing](#) methods, nationwide background checks and fingerprinting, FMCSA Clearinghouse management, supervisor training, and 24/7 emergency on-site collections.

NMS Screening & Compliance continues to operate through its integrated cloud-based platform, NMS OnBoard, which connects employers with more than 10,000 electronically enabled collection sites, a network of certified Medical Review Officers, and over 20 partner laboratories — all accessible from a single dashboard with real-time status updates.

## **Looking Ahead**

The rebrand to NMS Screening & Compliance signals the company’s continued investment in growth, technology, and service excellence. With over 30 years of experience serving regulated and non-regulated employers nationwide, NMS Screening & Compliance continues to expand its capabilities to meet the evolving demands of workplace compliance.

“Our mission has always been simple: help businesses be audit-ready, stay compliant, and minimize risk,” said Taule. “Now our name says exactly that.”

## **About NMS Screening & Compliance**

Founded in 1994 and headquartered in Greenacres, Florida, NMS Screening & Compliance (formerly NMS Management Services) is a full-service Third-Party Administrator (TPA) specializing in drug and alcohol testing, DOT compliance, background screening, occupational health, and workplace safety solutions. NMS serves employers in transportation, construction, healthcare, government, education, and virtually every regulated and non-regulated industry. With 24/7 availability, a nationwide network of collection sites, and an integrated compliance platform, NMS helps organizations build defensible

programs that support workforce safety and regulatory compliance.
