

Plan B Autobody Continues Leading Nashville's Collision Repair Industry with Multi-Brand Certifications

I-Car Gold Certified Shop Holds Six Manufacturer Certifications and Maintains 4.8-Star Rating from 375+ Customer Reviews

Nashville, Tennessee Feb 14, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Plan B Autobody, a [certified collision repair center](#) serving the Nashville area, maintains its position as one of the region's most trusted [auto body shops](#). The facility holds manufacturer certifications from six major car brands and earned recognition from local publications for quality repair work.

The shop earned its I-Car Gold Collision certification, which requires regular training and testing for technicians. Plan B also holds active certifications from Nissan, Infiniti, Honda, Acura, Hyundai, and Kia. These certifications mean the shop meets each manufacturer's specific repair standards and uses their recommended parts and procedures.

"We follow the repair guidelines set by car manufacturers," said a Plan B representative. "Our technicians receive ongoing training to work with newer vehicle technology, including driver assistance systems and safety features."

Readers of The Tennessean and Nashville Scene voted Plan B as Nashville's best collision repair shop. The business currently has a 4.8-star rating on Google based on more than 375 customer reviews.

What Plan B Offers Nashville Drivers

Plan B works with all major insurance companies, including State Farm, Progressive, GEICO, Allstate, and USAA. Tennessee drivers can choose their own repair shop, and Plan B helps customers navigate the insurance claims process.

The shop uses Original Equipment Manufacturer (OEM) parts whenever possible. These are the same parts that came with the car from the factory. OEM parts match the vehicle's original specifications for fit and safety.

Repair times vary based on damage. Minor fixes may take a few days, while major collision repairs can take a week or longer. The shop provides time estimates and updates customers during the repair process.

Plan B serves as an Elite Service Partner with Enterprise Rent-A-Car, helping customers arrange rental vehicles at reduced rates while their car gets fixed. Nissan and Infiniti owners receive free towing to the shop after accidents.

Fleet Services Available

The shop handles repairs for businesses with vehicle fleets. The [fleet service](#) team picks up commercial vehicles and works to complete repairs quickly. Plan B repairs all domestic and imported vehicle brands, from Honda and Toyota to Ford and Chevrolet.

Making Repair Decisions After an Accident

Vehicle owners have the right to select their repair shop. Plan B recommends calling them before contacting insurance companies to learn about available options. The shop provides free repair estimates.

Car accidents affect both safety and finances. Getting proper repairs matters because structural damage, frame issues, and safety systems need correct handling. Shortcuts during repairs can affect how well a car protects passengers in future accidents.

Plan B's technicians check for hidden damage that may not show up in initial inspections. This includes frame damage, suspension problems, and issues with safety system calibration.

For more information about collision repair services or to schedule a free estimate, Nashville-area residents can call (615) 672-7022 or visit planbautobody.com.
