

Redline K9 Dog Training Launches Official Website to Expand Access to Specialized Canine Services

Deltona, Florida Feb 6, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Redline K9 Dog Training, a Florida-based canine training company founded by Firefighter and Paramedic Gabrielle Franze, has announced the launch of its official website, www.redlinek9training.com. The new site provides information about the company's training and boarding services, mission, and features her ongoing work with her dogs as they train for emotional support and search-and-rescue service.

Founded in 2019, Redline K9 Dog Training works with dogs trained for obedience and behavior modification. The company aspires to not only serve the broader community, but also first responders and healthcare systems.

"The website gives people a clear picture of what we do and why we do it," said Franze. "Our work has always been hands-on. This just makes the information easier to access."

Franze brings a background in emergency services and athletics to her work as a canine trainer. She has served as a Firefighter and Paramedic with the Orange County Fire Department since 2019 and

holds state and national certifications in emergency medical services and firefighting. Her professional experience influenced the focus of Redline K9, particularly its emphasis on reliability, discipline, and real-world performance.

“Dogs often work in high-stress environments alongside people who do the same,” Franze said. “Training has to be consistent and practical. There’s no room for shortcuts.”

Redline K9 Dog Training works closely with its own dogs as part of its ongoing training and certification efforts. These include dogs training for disaster recovery search and rescue, emotional support services within healthcare systems, and competitive canine sports such as dock diving and Fast CAT.

The launch of the website marks a new step in the company’s development. Visitors can learn more about Redline K9’s training philosophy, areas of focus, and future service offerings as the business continues to grow.

“The goal has always been to build something sustainable and useful,” Franze said. “The website supports that by helping people understand the work before they ever reach out.”

Redline K9 Dog Training is based in Deltona, Florida, and continues to operate alongside Franze’s full-time career in fire and emergency medical services.
