THE LARGEST & PREMIUM INTERNATIONAL RENEWABLE ENERGY EVENT OF THE YEAR

Chennai, Tamil Nadu Feb 1, 2026 (Issuewire.com) - With India's clean energy transition gaining accelerated momentum, the **Renewable Energy Expo 2026** is set to take place from **12 to 14 February 2026** at the **Chennai Trade Centre**, offering industries a timely platform to evaluate technologies, form partnerships, and capitalise on emerging opportunities. Organised by Water Today Pvt. Ltd., the 8th edition of the Expo will feature over 200 exhibiting companies and is expected to

welcome more than 16,000 business visitors.

The three-day B2B exhibition will showcase a comprehensive range of solutions across renewable and solar energy, grid and metering technologies, green hydrogen, hybrid energy systems, energy storage, battery infrastructure, e-mobility, EV charging solutions, and allied clean energy technologies. The Expo is designed for industrial energy users, project developers, EPC contractors, utilities, OEMs, consultants, investors, and sustainability-focused enterprises seeking scalable, cost-effective energy solutions.

A major highlight of the event is the **two-day Green India Conference 2026**, to be held on **12 and 13 February**, themed “**Transforming India’s Power Systems for a Renewable-First Era.**” The conference will bring together experienced speakers, industry leaders, and technical experts to discuss practical pathways for renewable integration, grid resilience, and long-term energy security.

Conference focus areas include:

- Industrial adoption of renewable and hybrid power systems
- Energy storage, battery technologies, and grid modernisation
- Green hydrogen production and applications
- E-mobility, EV infrastructure, and clean transportation
- Policy frameworks, financing models, and implementation strategies

For business visitors, Renewable Energy Expo 2026 offers direct access to solution providers, technology innovators, and decision-makers, enabling project discussions, supplier evaluations, and partnership building under one roof. The event presents opportunities to identify new vendors, explore turnkey solutions, understand market-ready technologies, and accelerate sustainability and decarbonisation goals.

As industries prepare for the next phase of clean energy deployment, **Renewable Energy Expo 2026** serves as a strategic platform to convert intent into action.

Event Details:

Dates: 12–14 February 2026

Venue: Chennai Trade Centre, Chennai

Green India Conference: 12–13 February 2026
