30th Anniversary Concert Set for September 19, 2026 at The Troubadour with Special Lineup

Los Angeles-based concert promoter Sean Healy, founder of Sean Healy Presents (WeBookBands.com / SHPTickets.com), is celebrating a major milestone as his company marks 30 years in the live music industry. Founded in 1996, Sean Healy Presents has become a respected independent platform for discovering, developing, and showcasing emerging and established artists through grassroots booking and scalable live production.

Over the past three decades, Sean Healy Presents has produced more than 5,000 concerts, averaging approximately 200–300 shows annually across key U.S. markets including Los Angeles, San Francisco, Chicago, Seattle, Portland, Phoenix, and New York. The company has partnered with iconic venues ranging from The Troubadour and The Wiltern Theatre to larger stages such as the Apollo Theater and Palladium Times Square.

Healy's promotion history spans early-career breakthroughs to global headliners, working with artists including Kendrick Lamar, J. Cole, OneRepublic, Machine Gun Kelly, Jhene Aiko, SZA, TAEMIN, Dreamcatcher, LØØNA, and Ken Carson. In 2025, Sean Healy Presents reached a major milestone by booking TAEMIN's sold-out headlining concert at the Kia Forum, one of the company's largest single-night achievements to date.

"For 30 years, my goal has always been simple: to create real opportunities for artists and unforgettable experiences for fans," said Sean Healy, founder of Sean Healy Presents. "The live music business is constantly evolving, and staying independent has allowed us to adapt, take risks, and keep the focus on the artists."

Sean Healy Presents will celebrate its 30th anniversary with a special concert on September 19, 2026, at the iconic Troubadour in Los Angeles—one of the venues where Healy's journey as a promoter first began. The anniversary show will feature a stellar lineup, honoring three decades of live music history while spotlighting the future of independent artists.
