

Sign Made Easy Celebrates Two Years of Powering Seamless eSignature Workflows on Salesforce

Milwaukee, Wisconsin Feb 3, 2026 ([Issuewire.com](https://www.issuewire.com)) - *Sign Made Easy*, the Salesforce-native eSignature solution, celebrated its second anniversary on January 16th, 2026, marking two years of helping Salesforce users simplify document signing, accelerate deal cycles, and streamline approvals, without leaving their CRM.

Since launch, Sign Made Easy has seen strong adoption and consistent growth, now serving 2,000+ daily active users and enabling over 50,000 signatures across sales, legal, finance, and operations teams. The solution maintains a 4.5/5 rating on Salesforce AppExchange, reflecting high customer satisfaction, and has delivered 99.1% uptime, ensuring reliable performance for business-critical workflows.

Built specifically for Salesforce, Sign Made Easy allows teams to send, track, and manage eSignatures directly from Salesforce records, eliminating manual steps and disconnected tools while improving visibility and compliance.

“Reaching our second year is a proud milestone for the Sign Made Easy team,” said Piyush Singhal, CEO of Sign Made Easy. “What started as a simple idea – to make eSignatures effortless inside Salesforce – has grown into a trusted solution used daily by thousands of professionals. Our focus has always been reliability, ease of use, and deep Salesforce integration, and the trust we receive reflects the trust our customers place in us.”

Looking ahead, Sign Made Easy is working towards enabling AI-driven enhancements to further elevate the document signing experience. Planned innovations include intelligent automation powered by AI, designed to help teams close deals faster and operate more efficiently.

“The future of eSignatures is intelligent automation,” Singhal added. “We’re excited to bring AI-powered capabilities to Sign Made Easy, enabling smarter workflows, faster decisions, and even greater value for Salesforce users worldwide.”

As it enters its third year, Sign Made Easy remains committed to delivering secure, scalable, and intuitive eSignature experiences fully native to Salesforce and built for growing businesses.
