

SrinSoft Inc Recognized as Microsoft Solutions Partner for Business Applications

Recognition validates SrinSoft's expertise in Dynamics 365 and Power Platform modernization for legacy enterprise environments.

Boca Raton, Florida Feb 5, 2026 ([IssueWire.com](https://www.IssueWire.com)) - SrinSoft Inc, a global provider of IT and engineering services, has earned the Microsoft Solutions Partner for Business Applications designation. This achievement highlights the company's ability to deliver large-scale digital transformation in environments where legacy systems remain central to operations.

Microsoft awards this status based on demonstrated customer success, technical certification, and measurable business outcomes. SrinSoft qualified by successfully connecting modern business applications with established infrastructure, a common challenge for organizations that need to modernize without disrupting mission-critical workflows.

Modernization Without Disruption

SrinSoft's expertise in achieving this designation is built on two key Microsoft pillars, which the team integrates directly into existing business structures:

- **Microsoft Dynamics 365:** SrinSoft utilizes this suite to streamline ERP and CRM functions. By unifying finance, supply chain, and customer operations, SrinSoft provides leadership with a clear, real-time view of their entire organization.
- **Microsoft Power Platform:** SrinSoft leverages these tools to enable workflow automation and custom app development. This allows clients to extend the functionality of their **legacy systems** without needing to replace them, creating a more agile and modern workplace.

"Enterprise modernization is rarely a clean-slate exercise," said **Ram Hari**, Founder & CEO at **SrinSoft Inc.** "Our work is centered on connecting what already runs the business with the tools that help it run better. This recognition from Microsoft reflects our experience delivering solutions that scale inside real-world environments, ensuring our clients can modernize without disrupting their core operations."

Global Scale and Reach

Headquartered in **Florida, USA**, the organization supports more than 250+ international clients through a 24/5 global delivery model. It operates specialized development centers in **India**, with regional presence across **Dubai, Europe, and Australia**. Its Microsoft-certified teams support enterprise programs for **leading global corporations**, managing implementations that span multiple geographies and regulatory requirements.

About SrinSoft Inc

SrinSoft Inc is a global IT services company founded in 2005. The firm helps organizations update and improve their technology through legacy system modernization, software development, cloud integration, and quality assurance. By combining deep experience in established computer environments with modern Microsoft platforms, SrinSoft works as a seamless extension of its clients' internal teams.

Operating with an ISO 9001:2015 certification, SrinSoft is committed to delivering high-quality solutions backed by long-standing technology partnerships. The company provides the technical expertise needed to help businesses simplify their operations and succeed in a digital world.
