

Tappin Launches All-in-One Payment Suite - The Future of Event Payments in Norway

Tappin Launches **All-in-One Payment Suite**

*The Future of Event Payments
in Norway*

Oslo, Norway Feb 13, 2026 (Issuewire.com) - Tappin, Norway's leading platform for digital, hybrid, and in-person events, today announced the launch of its All-in-One Payment Suite - a complete payment solution designed to make it easier than ever for organizers to accept payments, manage invoices, and gain full visibility into event revenue.

As the event industry faces increasingly complex demands around payment flexibility, tax compliance, and streamlined operations, Tappin now provides a solution that combines ease of use, flexibility, and scalability. This marks a major step forward for the Norwegian event sector, where efficiency, transparency, and professionalism are essential for success.

What's new:

- Smooth and transparent payment flow - reduces payment drop-offs
- Flexible payment options - card and invoice payments
- Smart pricing tools - early bird, discounts, and add-ons
- Advanced product and ticket logic - both specified and unspecified
- Automated VAT handling and PDF invoices - simplifies accounting
- Full revenue visibility - real-time insights for smarter decisions

Ingunn Dahl-Eng, CEO at Tappin, said:

"With the launch of our All-in-One Payment Suite, we are giving organizers a solution that truly puts them in control. This is about more than just payments - it's about creating a seamless experience for participants, reducing administrative burdens, and giving organizers full visibility into their revenue. We're proud to help elevate Norway's event industry to a new level of professionalism and efficiency."

This launch marks a new chapter for the Norwegian event industry: organizers can now focus on experience and engagement, while Tappin handles the complexity behind the scenes.
