

The Hamilton Scrapper Expands Free Scrap Metal Pickup Across Greater Hamilton and Burlington

Hamilton's trusted local scrap metal service now offers free residential and commercial pickup in Stoney Creek, Ancaster, Dundas, Binbrook, Mount Hope, and Burlington.

The screenshot shows the website for 'THE HAMILTON SCRAPPER'. The header includes contact information (289-210-5401, hello@hamiltonscrap.com) and social media icons. The navigation menu includes Home, Services, Locations, Contact Us, F.A.Q, About Us, and Blog, along with a 'Book Free Pickup' button. The main content area features a large heading 'SCRAP METAL PICKUP HAMILTON' and a description of the service. A 'SCHEDULE PICKUP' form is overlaid on the right side, containing fields for Name, Phone Number, Email, Is Your Scrap Metal Outside?, Items You Have For Pickup, Location, and Message. The form also includes a 'Submit' button and a 'FAST RESPONSE' badge.

Hamilton, Ontario Feb 24, 2026 ([Issuewire.com](https://www.issuewire.com)) - The Hamilton Scrapper

[The Hamilton Scrapper](#), a locally owned scrap metal pickup and recycling service based in Hamilton, Ontario, has expanded its free scrap metal pickup service across the greater Hamilton area and into Burlington. Residents and businesses in Hamilton, Stoney Creek, Ancaster, Dundas, Binbrook, Mount Hope, and Burlington can now schedule fast, reliable pickups with the company's five-person team.

Founded in 2018, The Hamilton Scrapper was born from a passion for scrap recycling in Steel City. What started as a small free pickup operation has grown into one of Hamilton's most trusted options for metal removal, completing hundreds of pickups per month for residential, commercial, and industrial clients.

"Hamilton has always been a steel town, and scrap metal is part of the fabric of this city," said Derek D., founder of The Hamilton Scrapper. "Expanding our service area means more homeowners and businesses can get rid of unwanted metal without the hassle. We show up, we do the heavy lifting, and we make sure everything gets recycled responsibly. It is that simple."

The company offers free scrap metal pickup for qualifying materials including steel, aluminum, copper, brass, metal appliances, motors, car parts, tools, piping, and most other metal waste. Common residential items include old washers, dryers, refrigerators, stoves, BBQs, lawn mowers, bed frames, and metal shelving. The team handles all heavy lifting, and any costs for special handling are

communicated upfront before service begins.

Beyond residential service, The Hamilton Scrapper provides commercial and industrial scrap pickup for auto shops, factories, warehouses, construction job sites, and demolition projects. The company also purchases non-ferrous metals such as copper, brass, and aluminum at competitive market rates, giving businesses an easy way to turn surplus metal into cash.

The Hamilton Scrapper is licensed, insured, and committed to eco-friendly recycling practices, keeping reusable materials out of local landfills. The company operates Monday through Friday from 7:00 AM to 7:00 PM, Saturdays from 8:00 AM to 4:00 PM, and Sundays from 12:00 PM to 4:00 PM.

To schedule a free pickup, residents and businesses can call 289-659-2248 or visit the company website.

About The Hamilton Scrapper

The Hamilton Scrapper is a local scrap metal pickup and recycling service based at 135 James St S, Hamilton, Ontario. Since 2018, the company has provided free metal pickup for residential, commercial, and industrial clients, removing items such as old appliances, machinery, car parts, tools, piping, and other metal waste. Their mission is to make scrap removal easy while keeping recyclable materials out of landfills.
