

UPay360, a 360S2G Product, leverages Elavon to Revolutionize Utility and Government Payment Solutions Nationwide

New York City, New York Feb 23, 2026 ([Issuewire.com](https://www.issuewire.com)) - UPay360, a secure, cloud-based payments and citizen-engagement platform developed by [360S2G, Inc.](https://www.360s2g.com) ("360S2G"), today announced certification on Elavon's WorksWith platform, integrating its capabilities with one of the leading global payments processors.

[UPay360](https://www.upay360.com)'s advanced SaaS billing and payment engine empowers utilities and municipalities across the United States to deliver faster, safer, and more accessible payment options for their customers.

Through this certification on the WorksWith Elavon platform, UPay360 will use **Elavon's** world-class merchant services platform to process and settle utility and government payments with the highest standards of compliance, reliability, and speed.

"This partnership brings together the reliability and scale of Elavon with the innovation and agility of 360S2G," said **Nash Zabid**, Snr Vice President Technology (360S2G). "UPay360 now connects seamlessly with Elavon's payment rails, allowing utilities and public agencies to accept and reconcile payments effortlessly—through digital, in-person, and mobile channels."

Key Highlights of the WorksWith Integration

- **Integrated Payments Infrastructure**

UPay360 connects directly with Elavon's merchant services network, enabling utilities to process ACH, debit, and credit card transactions through a single, unified platform.

- **Enhanced Security and Compliance**

The joint framework complies with PCI DSS, SOC 2, and ISO 27001 standards, ensuring complete data protection and regulatory confidence for government and public-sector clients.

- **Frictionless Reconciliation**

UPay360 automates posting, settlement, and reconciliation, reducing manual work and helping finance teams improve accuracy and efficiency in revenue management.

- **Omnichannel Payment Experience**

Customers can make payments through digital, mobile, counter, or self-service kiosks, providing convenience for both traditional and underbanked communities.

- **Scalable Cloud Architecture**

Built on a modern cloud platform, UPay360 expands easily from small municipal utilities to large state agencies without additional infrastructure costs.

"We're excited UPay360 has joined our WorksWith Elavon platform with a payments experience focused on utilities and local governments improve operations and strengthen community access," said **Paul Sari**, Head of Partner Revenue, Elavon. "Our focus is to combine financial trust with technology that makes payments simple, secure, and inclusive."

UPay360, a product of 360S2G, Inc., is an advanced utility-billing and payment platform built to streamline customer engagement and revenue operations for utilities and municipalities. It supports ACH, card, and in-person payments, integrates directly with billing systems, and automates complete reconciliation processes through its [Util360](#) platform.
