THE LARGEST & PREMIUM B2B INTERNATIONAL WATER & WASTEWATER EVENT

Chennai, Tamil Nadu Feb 2, 2026 ([Issuewire.com](https://www.issuewire.com)) - As India accelerates its focus on water security, industrial sustainability, and environmental compliance, Water Expo Chennai 2026 is set to take place from 26 to 28 February 2026 at the Chennai Trade Centre. Organised by Water Today Pvt. Ltd., the Expo will feature over 200 exhibitors from India and overseas, making it one of the most comprehensive B2B platforms for water and wastewater solutions in the region.

The three-day exhibition will showcase a wide range of products, systems, and technologies covering water treatment, wastewater and effluent treatment, recycling and reuse, desalination, membranes, pumps, valves, automation, monitoring systems, chemicals, testing equipment, and smart water management solutions. The event is designed for industries, utilities, municipalities, consultants, EPC contractors, technology buyers, policymakers, and infrastructure developers.

A major highlight of Water Expo Chennai 2026 is its seven parallel conferences, organised in collaboration with chambers of industry and commerce and leading industrial associations. These conferences will address sector-specific challenges and solutions across industries such as manufacturing, textiles, pharmaceuticals, chemicals, food processing, power, infrastructure, and urban utilities.

The conference programs will feature speakers from government departments, regulatory authorities, industries, policymakers, industry experts, and environmentalists, offering diverse perspectives on water governance, technology adoption, regulatory frameworks, and sustainable water management practices. Sessions will focus on practical implementation, case studies, policy alignment, and future-ready strategies for water and wastewater management.

Visitors to the Expo will have the opportunity to witness hands-on demonstrations and live product showcases, enabling direct evaluation of technologies, operational capabilities, and performance outcomes. This interactive format allows decision-makers to engage closely with solution providers and assess technologies in real-world conditions.

For business visitors, Water Expo Chennai 2026 offers significant opportunities to identify new suppliers, evaluate proven technologies, build partnerships, discuss projects, and stay aligned with evolving regulatory and sustainability requirements. The event serves as a strategic platform where knowledge, technology, and business converge.

Event Details:

Dates: 26–28 February 2026

Venue: Chennai Trade Centre, Chennai

About the Organiser – Water Today Pvt. Ltd.

Water Today Pvt. Ltd. is a leading B2B media, knowledge, and events organisation dedicated to water, wastewater, renewable energy, and sustainability sectors.
