

3rd World Conference on Ageing and Gerontology (WCAG-2026)

Ageing & Gerontology

July 09-10, 2026

Frankfurt, Hessen Mar 7, 2026 (Issuewire.com) - **United Research Forum** cordially invites you to participate in the **3rd World Conference on Ageing and Gerontology (WCAG-2026)**, taking place from **July 09-10, 2026**, in **Frankfurt, Germany (Venue: NH Frankfurt Airport West)**. The conference will center around the theme: **"The Future of Aging: Longevity, Purpose, and Dignity"**, encompassing a broad spectrum of vital topics such as aging and clinical trials, anti-aging research,

gerontology, cognitive health, regenerative and preventive medicine, aging care management, cosmetic interventions in aging, nutritional standards and quality of life, rejuvenation therapies, palliative care, senescence, cultural perspectives on aging, elderly care services, genetic mutations, reproductive aging theories, dementia, molecular aging, and psychiatric impacts on aging.

Get ready for an inspiring experience with a diverse array of sessions, including keynote addresses from distinguished experts, dynamic oral presentations, thought-provoking plenary talks, energetic young researcher forums, engaging poster displays, interactive student sessions, practical technical workshops, insightful symposia, and unique start-up showcases.

In addition, all attendees will be eligible for **Continuing Professional Development (CPD) credits**, supporting your ongoing professional growth.

Join us as we explore cutting-edge research, innovative practices, and transformative insights in the fields of ageing and gerontology. We look forward to welcoming you to **WCAG-2026 in Germany!**
