

America's Best In Medicine Highlights Sebastian Partesotti, MD, Assistant Chief Of Anesthesiology At SLVHS Medical Hub

Elevating Perioperative Performance and Patient Advocacy in New Orleans

New Orleans, Louisiana Mar 6, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Sebastian Partesotti, MD, is a distinguished anesthesiologist and systems leader dedicated to optimizing perioperative performance across academic, federal, and community healthcare systems. As Assistant Chief of Anesthesiology at the Southeast Louisiana Veterans Healthcare System, he plays an instrumental leadership role in managing surgical operations for a major medical facility serving the nation's veterans. Through the strategic application of lean methodology and data-driven oversight, he has spearheaded initiatives to enhance operating room efficiency, improve on-time surgical starts, and reduce clinical cancellations—resulting in measurable improvements in patient flow and operational performance.

Clinically, Dr. Partesotti's work is grounded in comprehensive adult anesthesiology, encompassing complex vascular and neurosurgical procedures, cardiac anesthesia, and obstetric care. He brings specialized expertise in regional anesthesia and acute pain management, with a focus on multimodal, opioid-sparing strategies that accelerate recovery and improve outcomes. Advancing patient safety, precision, and comfort remains central to his approach.

Dr. Partesotti earned his Medical Degree from the University of Texas Medical School at Houston, where he was inducted into the Alpha Omega Alpha Honor Medical Society in recognition of his academic excellence and leadership. He completed his anesthesiology residency at the University of Illinois at Chicago, serving as chief resident, and went on to pursue a specialized fellowship in Regional Anesthesia and Acute Pain Medicine. He is a Diplomate of the American Board of Anesthesiology and maintains active membership in the American Society of Anesthesiologists.

In addition to his clinical and administrative leadership, Dr. Partesotti holds a Master of Business Administration, which informs his approach to workforce scheduling, strategic planning, and system-wide performance tracking. His dual background in medicine and business enables him to implement innovative, data-driven strategies that enhance care delivery while maintaining fiscal responsibility and measurable outcomes.

Beyond hospital operations, Dr. Partesotti is a sought-after industry consultant contributing to the development of ultrasound guidance technologies and AI-driven medical device innovation that advances procedural precision. His engagement with emerging technologies reflects his commitment to remaining at the forefront of anesthesiology and perioperative medicine.

A committed educator, Dr. Partesotti serves as faculty for both Louisiana State University and Tulane University, where he leads clinical conferences and simulation training for residents. He is passionate about mentoring the next generation of anesthesiologists and views education as a critical extension of his professional mission.

"I find great purpose in mentoring the next generation of anesthesiologists, whether through clinical conferences, simulation training, or bedside teaching. Sharing the knowledge and skills I have gained throughout my career allows me to contribute to a legacy of clinical excellence and high standards of care."

For him, teaching is not simply an academic responsibility—it is an investment in the future of patient safety and the continued advancement of the specialty.

Fluent in English, Italian, and Spanish, Dr. Partesotti brings a broad international perspective to his work. His commitment to global health has led him to participate in clinical exchanges in Switzerland and volunteer medical service initiatives in Tanzania, China, and Mexico. These experiences have strengthened his dedication to delivering compassionate, culturally responsive care.

What Dr. Partesotti values most about practicing medicine is the responsibility of serving as a patient's advocate and protector during life's most vulnerable moments. In the perioperative setting, he becomes both guardian and guide—ensuring safety, managing pain, and providing calm reassurance when patients must place complete trust in their care team. Through attentive communication and an unwavering commitment to patient-centered care, he delivers not only clinical precision but also the human connection that defines exceptional medicine.
