

Antikaye Revives a 60s and 70s Spirit With Three Thoughtful New Songs

Antikaye presents three self-written songs. 'Don't Move', 'Distant Friend', and 'Melancholia' blend pop and rock roots with a vintage 60s and 70s spirit.

CHANGE

Antikaye

Seefeld, Mar 23, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Bringing back the magic of 60s and 70s English and German music, **Antikaye** returns with three brand new songs. Drawing inspiration from the melodic depth of the retro era, the independent artist crafts music that blends pop, rock, and experimental touches. In a world where everyone is taking the easy route of composing and writing with the help

of AI, the artist stands out as everything that he releases is an original. This is how it has always been for the musician, and these three songs, '**Don't Move**', '**Distant Friend - Song for Martin Newell**', and '**Melancholia**', make sure that his honesty is felt in every note, every lyric.

'**Don't Move**' opens with a steady groove, carrying a warm vintage tone in its composition. The production lets the guitars and rhythm section breathe before the vocals arrive with a reflective edge. Lyrically, the song circles around moments that ask people to pause and hold on to what matters. However, it is the artist's vocals that tie everything together. On the other hand, '**Distant Friend – Song for Martin Newell**' carries a deeper emotional message. The composition leans toward gentle guitar textures and melodic lines that echo classic songwriting traditions. The lyrics speak of admiration and artistic kinship. His vocal delivery is extremely heartfelt in the track, making it pleasantly warm to hear.

Last but not least, '**Melancholia**' moves into a more introspective lane, where the artist was seen doing an experimental composition. The song also has a lingering tone that invites listeners to sit with the music. You can hear all of these songs on **Spotify** and [Apple Music](#), along with some of his previously released music like 'Pretty Little Liar - Acoustic Version', 'Snow Keeps Falling - Long Version', and 'She's Heavy Like a Neutron Star'. Follow him on [Facebook](#) and [Instagram](#) for more updates.
