Author and Infinite Banking Advocate Tess Hulack Empowers Readers to "Courage to Change" — and Take Control of Their Financial Future

Buffalo, New York Mar 25, 2026 (IssueWire.com) - After more than 30 years working behind the scenes in the insurance industry, Tess Hulack knows what it takes to build lasting financial stability — and personal peace of mind. In her new book, *"Courage to Change: 7 Principles to Move Past Fear, Unlock Your Potential, Build Inner Confidence & Achieve Your Goals,"* Hulack invites readers on a journey of self-discovery and empowerment that begins with mindset — and culminates in action.

Featured Speaker at "The BYOB Blueprint" Virtual Training Coinciding with her book launch, Tess Hulack will be a featured speaker at **The BYOB Blueprint: 3-Day Virtual Wealth Building Training**, taking place from **March 26th to March 28th, 2026**. Her spotlight session, *"From Insurance Insider to Infinite Banking Advocate: A Skeptic's Journey,"* will provide attendees with a unique look at how she overcame her own professional skepticism to embrace a new path toward financial sovereignty.

Hulack's message is simple but powerful: lasting change is possible when courage meets clarity. Drawing from both personal transformation and her professional experience in insurance accounting, she bridges the emotional and financial sides of growth — helping readers move past fear, rediscover purpose, and take confident control of their financial destiny.

"For years, I thought my personal growth and financial success were separate paths," Hulack shares. "But once I realized they work together — that courage in life fuels confidence in money — everything changed."

Through *Courage to Change*, Tess shares the seven principles that guided her transformation — and now uses these same principles to help others discover the Infinite Banking Concept (IBC): a financial strategy that empowers individuals and families to become their own banker and reclaim control of their wealth.
