

## Billie Pit - A Game-Changing Portable Fire Pit and Grill Blazes Onto Kickstarter Just in Time for Tailgating Season

New multi-functional outdoor cooking tool lets fans cook, grill and stay warm anywhere from parking lots to campsites

**Oregon City, Oregon Mar 4, 2026 ([Issuewire.com](https://www.issuewire.com))** - Today marks the pre-launch of a bold new outdoor BBQ product on Kickstarter: the Billie Pit, a portable fire pit and grill combo designed for outdoor enthusiasts who refuse to settle for ordinary cooking gear. The campaign is in pre-launch phase at <https://www.kickstarter.com/projects/jfw/billie-pit>. Blending function, portability and durability, the

Billie Pit is engineered for tailgaters, campers, beachgoers and backyard hosts who want a versatile cooking solution they can take anywhere. Built from lightweight stainless steel with a compact nesting design, the pit is as easy to transport as it is to set up perfect for enthusiastic grillers on the go.

### **Three Tools in One:**

Rather than requiring separate equipment for a fire pit and grill, the Billie Pit combines both into a single device. Its modular stainless-steel segments nest into one another for storage and deploy in minutes to form:

A fire pit for warmth and social gatherings

A BBQ grill for preparing meals over real flames

A multi-purpose cooking surface usable with charcoal or wood

This versatile configuration makes it ideal for tailgating parties before kickoff, where efficiency and convenience are prized almost as highly as great food.

### **Built for Tailgaters & Outdoor Lovers**

Tailgating culture continues to grow as a staple of college and professional football weekends. Fans spend hours in parking lots prepping food, cheering, and socializing. The Billie Pit taps into that spirit by offering a truly portable grilling experience that fits easily in the back of a truck, SUV, or car bringing together friends and family without the hassle of cumbersome equipment.

Whether you're firing up burgers before the big game or gathering around a campfire under the stars, Billie Pit gives you everything you need in one portable package, says creator Jeff Walker. (Campaign creator details via [Kickstarter](#).)

### **Kickstarter & Early Bird Perks**

Supporters who back the Billie Pit early on [Kickstarter](#) can receive exclusive pricing and rewards not available post-launch. Early pledges help bring this versatile outdoor tool to full production, celebrating a new era of portable outdoor cooking.

### **About Billie BBQ**

Billie BBQ is focused on developing accessible and durable outdoor cooking gear for adventure seekers, grill masters, and anyone who loves to make memorable meals outdoors. With the Billie Pit, the company aims to bring a premium cooking and fire experience to tailgates, camping trips, and backyard gatherings alike.
