

# Blueprint Smiles Hiring Dental Assistants in Atlanta

## New Dental Career Opportunities Open in Atlanta GA

### Atlanta, Georgia Mar 25, 2026 ([IssueWire.com](https://www.issuewire.com)) - Blueprint Smiles Expands Dental Career Opportunities for Aspiring Dental Assistants Across Atlanta, GA

Getting a foot in the door of a dental career has never felt more achievable in Atlanta — and Blueprint Smiles is making sure of that.

The fast-growing dental group, led by Dr. Dipesh Patel, is actively expanding its team of dental assistants across multiple Atlanta-area locations. For anyone who has been sitting on the fence about pursuing a career as a dental assistant in Atlanta, GA — this is the kind of opportunity that doesn't come around every day.

### A Career Path Worth Taking Seriously

Dental assisting isn't a stepping stone job. For a lot of people, it's the career.

Stable hours. Meaningful patient interaction. Real clinical skill development. And in a city like Atlanta — where the healthcare and dental sectors keep growing — the demand for qualified dental assistants isn't slowing down anytime soon.

Dr. Dipesh Patel has built Blueprint Smiles around a simple but genuinely rare idea: that the people working inside a dental practice deserve the same level of care and investment as the patients sitting in the chair.

"When the team feels supported and valued, that energy translates directly to the patient experience," said Dr. Patel. "We're not just hiring dental assistants — we're building careers."

That philosophy shows up in the numbers. [Blueprint Smiles dental assistants](#) start between \$18 and \$25 per hour depending on experience. There's a \$1,000 sign-on bonus. Health insurance. 401K participation. Office bonus structures tied to real performance goals.

And for people serious about long-term growth — several Blueprint Smiles dental assistants have gone on to dental hygiene school and even dental school after starting their careers within the group.

### What Blueprint Smiles Is Actually Looking For

Dr. Dipesh Patel and the Blueprint Smiles leadership team are looking for people with a genuine interest in dentistry and a real commitment to patient care.

Prior experience is welcome but not always required. A dental x-ray certification is a strong advantage. A high school diploma or equivalent is the baseline. Beyond that — attitude, reliability, and a willingness to grow matter more than a polished resume.

The day-to-day role covers the full scope of dental assisting. Preparing patients for procedures. Sterilizing instruments. Assisting chairside during treatments. Taking and processing dental X-rays. Maintaining accurate patient records. Supporting the dentist and hygienist throughout the clinical day.

Blueprint Smiles practices run on modern equipment too — digital 3D scanners, CBCT technology, intraoral cameras, Pearl AI diagnostic systems. Dental assistants who join the team get hands-on experience with tools that most practices haven't adopted yet. That's a genuine professional advantage that travels with them anywhere their career goes.

## Training That Doesn't Stop After Hiring

One of the things that separates Blueprint Smiles from a typical dental office is the investment in ongoing development.

Blueprint Academy — an internal training platform with over 300 videos covering clinical skills, operations, and leadership development — is available to every team member from day one. Annual CPR certification is sponsored by the practice. There's a private dental assistant community for real-time peer support.

Dr. Dipesh Patel's vision has always been about building something bigger than a dental practice. Blueprint Smiles has been recognized on the Inc. 5000 list for two consecutive years and received the Best of Georgia 2025 Award — credentials that reflect what the organization has become and where it's heading.
