

Door Hardware Partners Announces Hinsco Merger, Expanding Security Integrator Support in Texas

Plano, Texas May 8, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Plano, Texas – Door Hardware Partners (DHP) today announced that Hinsco, a respected name in the security industry, has officially joined the DHP family. The move marks an exciting new chapter for the company while strengthening DHP’s ability to support security integrators with specialized door hardware expertise.

Keith Donowho acquired Hinsco in 2012 from founder Mike Hinsley, a widely respected leader in the security industry. Donowho, who has been active in the industry since 2003, has continued to build on the company’s strong reputation for reliability, technical expertise, and trusted partnerships. In recent years, Hinsco has increasingly focused on supporting security integrators, making the transition to Door Hardware Partners a natural next step in the company’s continued growth.

“Joining Door Hardware Partners allows us to expand the level of support and resources available to the integrators we work with every day,” said Keith Donowho, now Vice President of Projects & Installation at DHP. “It’s an exciting evolution for the company while staying true to the relationships and service standards that have defined Hinsco for years.”

Door Hardware Partners leadership includes Matt Kirby, Vice President of Sales; Baron Hallford, Vice President of Operations; and Richard Morrow, Vice President of Service, who together bring decades of experience in door hardware, service operations, and integrator support.

With the transition, Hinsco’s security integrator partners will now be supported directly through Door Hardware Partners, whose core focus is providing door hardware solutions and project support for integrators.

Hinsco’s locksmith and safe service customers will continue to receive dedicated support through Texas Safe & Lock (TSL), DHP’s sister company. Texas Safe & Lock has served commercial clients since 1978 and will manage locksmith and safe services moving forward.

All operations will continue to be based at the Plano, Texas headquarters, ensuring continuity for customers and partners alike.

Importantly, existing contracts, relationships, and ongoing projects will remain in place without interruption. Customers can expect the same trusted service they have relied on for years, now supported by expanded resources and a larger team.

About Door Hardware Partners

www.doorhardwarepartners.com

Door Hardware Partners (DHP) specializes in providing door hardware expertise and project support for security integrators. The company works closely with integrators to deliver seamless hardware solutions for access control and security installations.
